## 1,000 Scouts Are Expected at Rally Saturday Night

Elaborate Program Set by Ulster-Greene Scout District in Auditorium

Nearly a thousand Cub Scouts, Boy Scouts and Senior Scouts from all over Ulster and Greene counties are expected to assemble Saturday evening at the Kingston Municipal Auditorium to participate in the Liberty rally being staged by Ulster-Greene Council. The show is under the general direction of Scout Commissioner Val W. Morrow of Maplecrest and the events director is Frank E. Bourke, Kingston district commissioner.

From the opening parade at 7:30 p. m. until the lights come up after the closing ceremony and the closing of the auditorium will be a hum of many varieties. One unit from each of the council's seven districts will compete in the program of skillful contests and an award will be made to all units of the district compiling the greatest score.

Scoutcraft skills to be demonstrated include roping, bandaging, signaling, and disaster services. Old time track and field enthusiasts will find particular interest in the potato race to be run. Cub Scout Packs will stage a variety of games as they play them in their own pack meetings.

The closing ceremony will emphasize the theme of the 40th anniversary of the Boy Scouts of America with a "Strengthen the Arm of Liberty." Miss Doris West of East Jewett, daughter of Mountain District Chairman James West, will portray "Liberty" and Eagle Scout William Welch of Air Scout Squadron 3, Kingston, will represent the Spirit of Scouting. ## Clinic for Nervous Veterans to Begin Here During May

92 Ulster Residents May Ask Treatment for Disorders They Got in War

A Veterans Administration psychiatric clinic for veterans with service connected neuro-psychiatric disorders will be held regularly in this city beginning early in May.

A team consisting of one psychiatrist, one psychologist and one medical social worker will be in Kingston one evening a week to treat veterans "eligible" for this service without cost to the veteran. Only those whose discharge from service records the fact that the disorder was service connected will be admitted.

**V. A. Has List**

Edward P. O'Dell, V. A. contact officer for this area, estimated 92 Ulster county veterans are eligible for treatment at the clinic.

Under present plans, Dr. F. G. DeNatalo of the staff of the Hudson River State Hospital will be the psychiatrist, Miss Rosemary Feeney, R. N., the medical department of the Ulster County Welfare Department, will be the medical social worker. The psychologist has not been announced.

The clinic program is in charge of Ellison Capers, administrator of Vassar Hospital, Poughkeepsie, contractor for the service. Under terms of the contract, the V. A. pays the hospital at a set rate per treatment visit and the hospital, in turn employs the professional workers.

**May 4 Opening**

Tentative date for the opening of the clinic has been set for May 4, but all veterans who desire to attend have been asked to contact Mr. O'Dell at his office at 286 Fair street for latest information as to date, place and time.

The clinic will probably be held at the Ulster County Health Department building on Main street. The department has offered its facilities to the V. A. for that purpose.

Cooperation of the Veterans Administration and its local representative, Mr. O'Dell, with the Mental Hygiene Committee of the Ulster County Medical Society, the Mental Health Committee of the Ulster County Tuberculosis and Health Association, the Ulster County Medical Society and the medical section of the New York office of Veterans Administration made possible the establishment of the clinic in Kingston.

Dr. George James, county health commissioner, has pointed out that veterans attending the clinic are assured of the best of treatment as the personnel selected must meet rigid requirements of the V. A.

## Kirk Will Receive Detailed Briefing

New Moscow Ambassador Will Be Recalled From Brussels

Washington, April 21 (AP)—Admiral Alan G. Kirk, President Truman's choice as new ambassador to Russia, faces careful State Department grooming before leaving for Moscow.

Officials said today he will be recalled shortly from Brussels for detailed "consultations" before taking up his frontline position in the cold war.

Although Kirk has only three years' experience as a diplomat, he has been described as an impulsive, quick-moving, capable ambassador—which is just what Secretary of State Acheson and his advisors wanted at this stage of relations with Russia.

While Kirk will have the tough job of dealing with Foreign Minister Andrei Y. Vishinsky and other Soviet officials, his orders will come from Washington. Vital American decisions relating to Russia are expected to come from the White House and the State Department, although the Moscow

## Briton Says New China Is Typical

Peace Congress Told Workers Won't Take Part in Fight Against Soviet Union

Robeson Refuted

Walter White Believes Negroes Will Act as Americans

Paris, April 21 (AP)—Konni Zilliacus, leftwing British legislator, told the Communist-sponsored "World Peace Congress" today the "workers of Britain will not fight or be dragged into fighting against the Soviet Union."

Paul Robeson, American Negro singer, told the delegates yesterday that Negroes in the United States would never fight the Soviet Union and his statement brought a quick retort from a Negro leader in New York.

The clapping of the 2,000 delegates from more than 50 nations became so loud when Zilliacus made his declaration today that his next words could not be heard. When the hall quieted, Zilliacus was saying:

"That is why the new China is victorious. The workers will not let themselves be turned into a blood bank for politicians incapable of solving their problems in any other way."

Zilliacus, a member of the British Labor party, called upon the delegates to produce a reasonably detailed set of proposals "for settling issues between the east and west."

The audience followed the speaker only listlessly during his attack on the North Atlantic defense alliance and American foreign policy, attacks which echoed yesterday's opening barrage.

The keynote speeches bristled with attacks on "imperialists" and "warmongers."

The opening sessions featured a statement by Paul Robeson, American Negro singer, that Negroes in the United States never will fight the Soviet Union.

The statement brought a quick retort from the head of the National Association for the Advancement of Colored People in New York City.

"In the event of any conflict that our nation has with any other nation, we will regard ourselves as Americans and meet the responsibilities imposed on America," said Walter White, secretary and leader of the N.A.A.C.P.

"We do not feel that Mr. Robeson voiced the opinion of the overwhelming majority of the Negroes in America," he said.

## P.S.C. Okays Boost Of Central Hudson

Corporation May Increase Its Electric Rates by 3 Per Cent

Albany, N. Y., April 21 (AP)—The State Public Service Commission today authorized the Central Hudson Gas and Electric Corp. to increase temporarily its electric rates by three per cent.

The company supplies gas and electric service in Poughkeepsie, Newburgh, Beacon and many smaller communities in the Hudson valley.

The P.S.C. estimated the increase would yield the company \$68,000 in additional revenue on an annual computation. Authorized on interim basis, it is effective immediately and until October 31.

In its original petition last December, the company proposed rates to produce additional revenue of about \$718,000.

Commissioner Spencer B. Eddy said in an opinion that the utility was not receiving a fair return.

He added that the company was faced with heavy expenditures.

## Dewey Signs 4 Child Bills, Also Wicks' Trooper Pay Act

Albany, N. Y., April 21 (AP)—Governor Dewey signed four bills today which he said "strike at the trafficking in children."

The principal measure prohibits any person or organization, other than an "authorized agency," from accepting a fee for placing a child for adoption. It also bars persons from paying any but an authorized agency for arranging an adoption.

The bill provides that violators would be guilty of a misdemeanor for a first offense and a felony for a second offense.

Authorized agencies are those under the supervision of the State Board of Social Welfare.

The three other bills:

## U. S. Delegates Plan Counter-Move to Reds

New York, April 21 (AP)—U. S. delegates' plans for formation of a continuing anti-Communist World Federation for Intellectual Freedom were announced here yesterday.

The project was discussed by Dr. Sidney Hook, of the New York University philosophy department, and James T. Farrell, author.

Hook led in organizing a rally opposing the recent Cultural and Scientific Conference for World Peace here. "The State Department said the conference was a Communist propaganda gathering," he said.

Hook and Farrell are leaving by plane today for Paris to attend the April 30 meeting of intellectuals called as a counter-move to the Communist-sponsored Peace Conference that opened there yesterday.

## New York Says Work to End In 1952, 1956

Reports on a six-month survey to determine the extent of water waste in New York city, this week brought out that the city plans to complete the Rondout and Neversink water works projects in 1952 and the East Delaware section by 1956.

The New York Department of Water Supply Gas & Electric, stressed that the city must get along with its present system until the new sources are opened.

The Rondout and Neversink sections, it said, should add 205,000,000 gallons daily and the East Delaware section will add 335,000,000 gallons daily.

The report said that New York in 1948 used 1,630,000,000 gallons daily, which was 118,000,000 gallons over the estimated dependable yield of the watershed. The sale of water earned the city \$46,475,651.

New York's daily waste of water is put by experts at not less than 200,000,000 gallons. The recent survey indicates that waste is diminishing, and that the use of water is not on the rise for the first time in many years.

## Building Is Darkened

New York, April 21 (AP)—The 40-story Singer building at 149 Broadway was plunged into darkness today and all electrical service was disrupted as a result of a short circuit. A fire alarm was reported caught in an elevator between the second and third floors. One man, an engineer, was taken to Beekman Hospital suffering from burns. Many business firms suspended business; operation because of the absence of electrical service.

## Editors Are Told Fight Is Uphill

President E. D. Canham Says Efforts for U.N. Pact Not Easy

Washington, April 21 (AP)—American efforts for a United Nations agreement on freedom of information may "leave us farther back than we started," President Erwin D. Canham told the American Society of Newspaper Editors today.

Opening the three-day A.S.N.E. annual meeting, Canham retorted that the battle for a free international flow of news has turned into "an uphill and dangerous business."

The original agreements have been so altered by proposed amendments, he said, that they are being used in some areas "as a means of imposing new controls and limitations on the press."

Canham, editor of the Christian Science Monitor, is a member of the United States delegation on the U.N. project. Noting some brightening of the outlook in recent days, he said the results "may not be so bad." But he warned:

"The danger is that at this stage in world history, international law may be written on the subject of freedom of information which will leave us farther back than we started."

"If we are defeated on the final vote, and on serious grounds, there is of course no compulsion on the United States to sign and ratify these conventions."

"The danger is that these possibilities are being used to bring him to safety."

## Senator Predicts Rejection Of Housing Bill Amendments

Boost for Economy Is Overdue, Says Source at Capital

Secretary of Treasury Is Optimistic; Jobs Are More Than in 1948

Washington, April 21 (AP)—The spring season's expected boost for the nation's economy is overdue. That became clear today from a new batch of government reports.

They showed fresh declines in non-farm employment, in factory workers' earnings and working hours, in business loans and in estimated farm receipts.

One government official, Commissioner Edwin Clague of the Bureau of Labor Statistics, said ordinarily these figures should have showed an uptrend this time of the year. He said maybe it's just delayed action, due in part to a late Easter.

However, another top official, Secretary of the Treasury Snyder, sounded an optimistic note to a New York audience last night. He said latest employment figures actually are higher than a year ago and purchasing power still is high.

"Right now," said Snyder, "in the pockets of the American people, we have \$200,000,000,000 of liquid assets."

Snyder said the present economic picture lacks the elements that "brought on depression and depression crises in the past."

On the other hand, a third government expert, Louis H. Bean, said businessmen must cause a depression by curtailing investment for industrial expansion. He said recent surveys indicate they plan to reduce it in the next five years to 40 per cent of the 1948 level.

Bean, economic adviser to Secretary of Agriculture Brannan, also spoke in New York.

Clague told a news conference the new lag in working hours and working hours means a cut in public purchasing power. He gave these figures for March:

Non-farm employment—down 150,000 from February to 43,843,000. This is 750,000 below a year ago, when March showed a 30,000 increase over February. Non-farm employment represents about three-fourths of the nation's workers.

Factory earnings and working hours—weekly earnings down about \$1 to \$5.37 from February and down \$1.66 from December's \$55.03 peak. Working hours reduced from 39.4 in February to 38.9 in March.

A 13th consecutive weekly decline in business loans was reported by the Federal Reserve Board. It said they fell off \$84,000,000 in the week ended April 13.

And the Agriculture Department estimated that farmers' cash receipts may be 10 per cent less this year than the 1948 record total. Their net income may decline even more, the department said.

In over-all employment the Census Bureau has reported a slight increase for March from February. Clague said this was due to a "substantial rise" in farm employment which more than offset the non-farm decline.

## Mediators Meet With Four O. & W. Union Delegates

O'Neill Says He Plans to Meet Later With Delegation From Railroad

New York, April 21 (AP)—Federal mediators sat down today with representatives of rail operating unions in an effort to settle a four-day-old strike on the New York Ontario and Western Railway.

Francis A. O'Neill, Jr., member of the National Mediation Board, planned to meet later with a company delegation which also was on hand.

The road's trustees said yesterday they would rather have the line go out of business than meet the wage demands of the four striking brotherhoods.

Raymond L. Gebhardt, a trustee and one of the officials waiting to confer with the mediators, said "we simply can't afford to pay the increase the brotherhoods seek."

The unions are demanding a 10 cents an hour boost given them in a contract last October.

The trustees maintain the increase was subject to court approval and say that Federal Judge Edward A. Conger ruled the line's financial condition did not permit paying it. The unions and the National Mediation Board dispute this view.

The line, an important anthracite coal carrier, is completely tied up by the strike. Gebhardt said about 400 operating employees have walked out and that 1,400 non-operating employees have been laid off.

The trustees' application for a court order permitting a request to the Interstate Commerce Commission for authority to abandon the line is to be heard April 27.

## Boy Rescued in Sewer

Blackburn, Eng., April 21 (AP)—Five-year-old Kevin Wilson fell into a sewer while playing today and was rescued one hour later and a half-mile away. A policeman lowered head first down a manhole, pulled Kevin out, safe but unconscious. The boy's playmates told his mother he had disappeared into a narrow hole on a vacant lot. Watchers were posted at manholes all along the sewer, which contains a swift stream two feet deep. A fireman sighted the boy floating past and grabbed his legs until the policeman could bring him to safety.

## Coal Talks Called

Washington, April 21 (AP)—Southern coal mine owners called today for early talks on a new contract, and cautioned John L. Lewis that increased labor costs might mean a sharp cut in production.

The coal talks called for by the mine owners were scheduled to meet first (12:30 p. m.) with the full committee going into session later.

There was no indication before-hand of a last-minute change in plans to effect the 41-year-old former state deputy controller as the new G.O.P. leader.

The Republicans also were expected to consider:

- 1.—A proposal to create a new office—a sub-chairman to direct G.O.P. activities in New York city's five boroughs.
- 2.—The possibility of making the state chairmanship a full-time job at a reported \$35,000, or to increase the existing expense allowance.

Pfeiffer arrived here last night to accept the chairmanship resigned by Glen R. Bedenkapp. Bedenkapp quit in January to become a member of the State Public Service Commission.

Two other prominently mentioned possibilities for the party job—Reps. Dean P. Taylor of Troy and W. Sterling Cole of Bath—apparently had eliminated themselves from consideration earlier.

Taylor, believed to have been Governor Dewey's first choice for the job, publicly stated he could not accept because of the press of congressional duties and his private law practice.

## Deputy Leader Says He Expects Measure to Pass in Form Approved

Washington, April 21 (AP)—Senator Myers (D.-Pa.) predicted today that the Senate will reject practically all amendments to the long range housing bill, including an explosive anti-segregation proposal.

Myers, the deputy Democratic leader, told reporters he looks for the bill to be passed "substantially as it was approved by the Banking Committee."

The Pennsylvania lawmaker forecast that "only a few votes" would be cast for an amendment by Senators Bricker (R.-Ohio) and Cain (R.-Wash.) which would prohibit discrimination on the basis of race, creed or color in the renting of public housing.

That proposal touched off a hot argument in the Senate yesterday and threw a monkey wrench into the Democratic leadership's plans to start voting on the 15 pending amendments.

As a result, the first order of business before the Senate today (meets at noon) was the same amendment which was up for consideration when yesterday's session began. Also sponsored by Cain and Bricker, it would let the citizens of individual communities decide at the polls whether they want public housing.

Myers said "the bill calls for construction of \$10,000 public housing units during the next six years. The federal government would contribute up to \$308,000,000 annually for up to 40 years to help finance the projects."

**Would Meet Costs**

However, most of the cost would be met through the rents collected, along with local community contributions.

Among other things, the bill calls for construction of \$10,000 public housing units during the next six years. The federal government would contribute up to \$308,000,000 annually for up to 40 years to help finance the projects.

A certificate of incorporation has been granted Bev. Anderson Chevrolet, Inc., a stock corporation formed to conduct a general automobile sales and service in Kingston. The corporation is authorized to begin business with 1,000 shares of no par value stock.

The principal place of business is located at 37 O'Neill street, Kingston, where Anderson recently leased the garage and service station formerly occupied by Colonial City Chevrolet, Inc., and which recently was bought by Canfield Supply Company. The new corporation will sell and service Chevrolet cars and trucks. Under the corporation papers there may be no more than three non-directors.

Directors named to serve until the first annual election are Beverly C. Anderson of 266 Albany avenue, Ruth K. Friedell of 50 Franklin street, and Lula S. Coughman of 93 Johnston avenue, Kingston.

## Republicans Will Select Chairman; Probably Pfeiffer

Albany, N. Y., April 21 (AP)—The Republican State Committee goes into a huddle today to choose a chairman, probably Rep. William L. Pfeiffer of Kenmore.

The Executive Committee was scheduled to meet first (12:30 p. m.) with the full committee going into session later.

There was no indication before-hand of a last-minute change in plans to effect the 41-year-old former state deputy controller as the new G.O.P. leader.

The Republicans also were expected to consider:

- 1.—A proposal to create a new office—a sub-chairman to direct G.O.P. activities in New York city's five boroughs.

## Troops Told To Capture Criminals

Communist Leaders Are Aiming to Get Chiang Kai-Shek in Fresh Sweep

30 Britons Killed

One Hundred British Wounded as Result of Ships' Shelling

Shanghai, April 21 (AP)—The known dead from Chinese Communist attacks on four British warships reached 42 tonight.

Nanking, April 21 (AP)—Communist forces attempted today to consolidate newly won positions south of the Yangtze as the river battle drew four British warships into the fight.

Chinese government spokesmen said successful Communist crossings of the Yangtze, which separated Nationalist territory from Red, had been made at Tikang, 80 miles west of the capital and at Wuhu, 60 miles inland from here.

Government troops were counter attacking. A few planes and gun boats were pressed into the battle by the tottering government.

Top level ministry of national defense sources said the Communist attacks against Kiangsu last night and again this morning, Nationalist reinforcements were being rushed toward Kiangsu.

Red leader Mao Tze-tung and his army chief of staff exhorted their troops to "liberate all China" in a special communique.

British naval units were unwilling participants in the Yangtze battle. Four vessels, the 10,000 ton cruiser London, the destroyer Consort and the sloops Amethyst and Black Swan suffered casualties.

Various reports totaled 30 Britons killed and at least 100 or more wounded in two days of naval shore gun dueling 60 miles northeast of Nanking. First struck was the Amethyst, en route to Nanking from Shanghai to pick up British Nationals. She was knocked out temporarily but able to do 17 knots. However, she was held to her position in the Yangtze because of Red guns below her.

**Ships Driven Away**

The consort was driven away from her yesterday when she tried to relieve the sloop. The consort suffered 10 killed and 16 wounded. The amethyst had 20 killed and 30 to 40 wounded, survivors reported.

Today the 10,000-ton cruiser London and the sloop Black Swan were turned back from the Amethyst by heavy Communist shore fire. This fire consisted of anti-tank shells and smaller arms. The British ships returned the fire.

Later both put in at the Chinese navy port of Kiangyin, downstream from the battle scene.

A London Admiralty statement said the Amethyst, now refloated, reported she was capable of 17 knots but that to risk running the gauntlet of shore guns was out of the question at this time.

In a joint communique broadcast by the Communist radio Mao Tze-tung, China's no. 1 Communist, and Red Commander-in-Chief Chu Teh ordered their armies to "advance and liberate all of China."

## Automobile Club Asks Cut in Tolls

New York, April 21 (AP)—The Automobile Club of New York has asked Gov. Thomas E. Dewey to force reduction of motor tolls on bridges and tunnels linking New York and New Jersey.

John R. Crossley, vice president of the club, said yesterday in a letter to Dewey that the Port of New York Authority, which operates the bridges and tunnels, last year showed a profit of "almost \$20,000,000."

He claimed the authority "derives more than 83 per cent of its annual operating revenue from the motoring public." He said "its elaborate structure of port development and improvement" depends on the tolls.

The authority operates the Holland and Lincoln Tunnels, George Washington Bridge from Manhattan, and the Bayonne, Goethals and Outerbridge crossing bridges from Staten Island to New Jersey.

The emergency pay continues until that date.

The measure makes permanent a \$180 boost—from \$1,200 to \$1,380—in a trooper's base pay for his first year of service. All automatic increases are raised through the seventh year of service, when the pay is lifted from \$2,700 to \$3,120. That is the maximum pay for a trooper.

Other ranks get permanent pay increases up to the deputy superintendent, whose base salary is set at \$9,325, instead of \$8,500.

The governor approved yesterday a bill to permit fire, marine, casualty and surety companies to sell "package" policies covering most types of insurance. It becomes effective July 1.

The new law will allow such companies to issue single policy, full coverage insurance, excluding only life insurance, annuities, title insurance and insurance of life of property.

Under existing law, fire and marine insurance companies are prohibited from writing casualty and surety insurance, and casualty and surety companies cannot write fire and marine insurance.

Dewey also signed bills to: Prohibit life insurance companies and fraternal benefit societies from lending more than five per cent of their assets to a single borrower.

Permit the state superintendent of insurance to assess life insurance companies to provide funds for the committee on valuation of securities of the National Association of Insurance Commissioners.

Assessments permitted by the latter measure will be limited to a total of \$250,000 from New York companies. The funds will be used by the valuation committee to enhance its activities in investigating, analyzing and evaluating securities held by insurance companies.

said that he felt he could be of greater party service by remaining in Congress. He is a ranking Republican on the House Armed Services Committee. Cole, 45, has been in Congress since 1934.

Pfeiffer was elected to Congress last fall from the 42nd New York District. Previously he had been with the State Department of Audit and Control for six years.

Pfeiffer was executive assistant to Comptroller Frank C. Moore from January 14, 1943, until April 1, 1946, when Moore appointed him deputy comptroller.

As deputy, he directed the department's personnel, budgets and investment affairs.

Moore, a potential candidate for the 1950 gubernatorial nomination, is reported to have placed Pfeiffer in the running for the chairmanship.

Pfeiffer will be 42 on May 29. He is married and has two daughters, Jacqueline, Claire and Betty Lou. He is a member of the United Presbyterian Church.

Congressman Taylor suggested creation of a fiveborough G.O.P. leader for New York city. He believes party problems in the city are for the most part, different from those upstate and should be handled separately.

The metropolitan leader, he proposes, would be subject to the overall control of the state chairman. He would have, however, autonomous powers to deal with local situations in the Bronx, Queens, Manhattan, Kings and Richmond.

Taylor told a reporter yesterday that Frank Kenna, Queens

G.O.P. leader would make a good city-wide Republican chief.

### HEALTH INSURANCE COSTS

Senator Robert A. Taft declares the proposal for compulsory federal health insurance is a tax and not insurance and that the very term compulsory insurance is a contradiction, for insurance is a free act by which a man pays certain definite sums in order to receive protection or benefits worth, according to actuarial computations, approximately what he pays. If he is compelled to pay something to the government, that is a tax, and he has to accept in return exactly what the government gives him, or fails to give him. Furthermore, he states, the proposed payroll deduction is a tax because the benefit promised has no relation, or a very remote relation, to the amount of the payments made.

A compulsory government health tax leaves the individual no choice. He is compelled by law to accept government medicine because he cannot afford to also subscribe to existing systems for voluntary prepayment for medical care.

On the question of the costs of the health plan, The Christian Science Monitor prints the following:

It has become a habit for federal officials promoting compulsory health insurance in the United States to minimize or ignore its costs. The original Wagner-Murray-Dingell bill played down the costs. The last of the series under this name left them out altogether. Effort has been persistently made for the past 10 years to sell the American public something calling for a huge expense without giving an accurate forecast of the ultimate cost. That may be ingenious, but it is poor public policy.

However, analysis is now and then furnished by independent sources. W. Rulon Williamson, former actuary of the Social Security Board, says there could be a high of 18 per cent of payroll, a plausible medium of 12½ per cent, and a low, hardly to be expected, of 7 per cent when years hence the program is fully under way. These benefits include both medical care and cash benefits for disability—the standard features of government health insurance.

Mr. Williamson points out that a great deal depends on the liberality both of the formula and of administrators, and hence estimates must vary widely. But in his view the total cost of social security, with health insurance added to the liberalized old-age and survivors' insurance and unemployment compensation, could come between 18 per cent and 36 per cent of payroll.

The greatly mounting costs of the British and New Zealand health insurance programs indicate that the United States would be faced with the same problem. If introduced here and really made effective, health insurance for many years would probably require much more tax money than old-age or unemployment insurance. Its financing should be adequately explored.

### HELICOPTER TAXIS

People who get a kick out of something new had a thrill a few years ago when they read that a midwestern taxicab company had applied for a license to operate helicopters. The company never put the service into operation, and now has been notified by the Civil Aeronautics Board to do so by July 1 or lose the certificate. Considering that helicopters were priced at \$25,000 in 1946, when the company filed its application, and now cost around \$78,000, the company probably will not fight very hard for the helicopter taxi franchise.

Helicopters might have great possibilities for intercity service, over distances too far for a taxi and not far enough for a plane. If the little detail of cost could be overcome, Americans might yet see helicopter taxis begin to dot the skies.

### INVESTIGATE CHINA POLICY

Dean Acheson, secretary of state, in an unnecessarily harsh reply to a congressional inquiry, indicated to the Chinese Communists that there is no possibility of the American government aiding those who oppose them. On receipt of this information, the Chinese Communists put the screws on the Nanking regime by giving them a three-day ultimatum.

In this connection, the charges of Senator Styles Bridges and Senator Pat McCarran that Dean Acheson has distorted the figures of American aid to China need investigation. The disparity between what Dean Acheson says this country provided and what the Chinese say that they received runs to hundreds of millions of dollars. Someone here or in China is either a liar or a very bad bookkeeper. Someone may also be a thief.

It would be sound for a special congressional committee to make a thorough study of the American China policy, say from 1939 to 1949—a 10-year period. It is during this period that our policy, which had been fixed since the Treaty of Whanghaia in 1944, was suddenly changed. The John Hay open door policy was dropped. The Nine-Powers Treaty was dropped. The Stimson Doctrine was dropped. The United personnel in the State Department was transferred all over the place and an entirely new group of outsiders and juniors was placed in charge. The three leading figures in the conduct of our China policy were Laughlin Currie, Owen Lattimore, and John Carter Vincent. A congressional study of the policy and operations of these three experts would be most interesting.

The Chinese Communist party was organized in 1920 and has taken part in Communist conferences since then. This was duly reported in "International Press Correspondence" (Impresso), the third international publication. The names of the current Communist leaders appeared in those reports.

For instance, Li Li-shan, who is now the boss of Manchuria, managed the anti-foreign, anti-American activities of the Chinese Communists in Shanghai from 1925 to 1927. I watched his activities closely and reported them at the time in the "North China Daily News," a "Japan Advertiser," and in "The China Year Book."

Yet, in recent years, those in control of our State Department insisted that these Communists were not Communists at all; they were Agrarians. So when these Communists turned up last autumn as agents of Russian imperialism, carrying out the Soviet post-Yalta policies, our experts switched from Agrarianism to Titoism.

What do they mean by that? By declaration, Tito is Communist. But he takes the position that he can only be an effective Communist if the Russians will give him a better economic break than the Russian colonial scheme permits. Therefore, he is now a schismatic Communist but not heretical. He belongs to the lodge but is sore at its president.

So when they say that Mao Tse-tung is going to be a Chinese Tito, they mean that he will still belong to the Communists but that he wants to be as important as Stalin in the lodge; otherwise, he will do a little for himself.

And we are supposed to play in that game. The brilliant minds that operate our State Department would like to get us into a position—maybe they have done so already—so that Mao Tse-tung can play the United States off against Soviet Russia, not with the object of being our ally but with the object of blackmailing Stalin.

Well, the old boy in the Kremlin discovered that game long ago. So he put Li Li-shan in charge of Manchuria and he distanced Mao and always has. If Mao Tse-tung tries to be a Tito, Stalin's boy, Li will give him, and incidentally us, a swift kick where it is sure to hurt.

This would be a good time for a congressional committee to have a look at this picture. They might also look at the Amerasia case, at the Institute of Pacific Relations, at the American silver policy which bankrupted China, at the possession of American arms by Asiatic Communists and how they got them, and at the retention in office and promotion of those American officials who pursued a pro-Russian policy in China. A good look ought to be very revealing—and ultimately will save American lives.

## That Body of Yours

By James W. Barton, M.D.

### PSYCHOTHERAPY

It is told of a busy country physician that he had a wonderful record in the treatment of pneumonia; seldom losing a patient. Someone was mean enough to suggest that he had gained his reputation by calling every simple cold pneumonia and, as practically all patients with the common cold get better without treatment, he had no failures with his so-called pneumonia patients.

As we think of this country practitioner and the new method—psychotherapy—of treating the mind of the patient in addition to treating the body, it is more likely that he had told his patients with the common cold or slight bronchitis exactly what disease was present, he would not have received the patient's cooperation in his treatment of the case.

No patient is going to remain in bed with a simple cold. Accordingly, he refuses to remain in bed, gets up and around, has a light rise in temperature, gets in a draft, and a cold that was only in the nose and throat may go down into the lungs and become pneumonia or pneumonia develops.

By calling the illness pneumonia, the patient is willing to remain in bed which takes the work off the heart and blood vessels. He thus is in better shape to fight pneumonia should it attack him. In other words, this country physician's handling of the case would now be called up-to-date psychotherapy.

As we think of present-day psychotherapy, we have in mind the great number of individuals who consult their physicians for physical ailments, the symptoms of which are real enough but which are caused by emotional disturbances.

In "Health," Canada's national health magazine, Dr. Lorne E. Carpenter reminds us of how the emotions produce actual symptoms. The physical act of blushing is reaction to embarrassment. Trembling, palpitations, increased perspiration are due to fear. Disgust leads to nausea. Shuddering and goose flesh may be caused by horror. Also ill health and many physical symptoms are caused by frustrations and disappointments.

### Neurosis

Neurosis—believing you have a physical ailment when none exists—is becoming increasingly common. Send today for Dr. Barton's informative booklet on this subject entitled "Neurosis." ## The Kiss of Judas

## The Washington Merry-Go-Round

By Drew Pearson

Washington—It won't be announced officially, but the State Department has taken a secret and highly significant step to try to stop the three-year-old war in French Indo-China.

Indo-China is a long way from the U.S.A., but in these days of global cold war, what happens there can influence the spread of Communism in the Philippines, the Malay Peninsula, and elsewhere.

Therefore, Ambassador Caffery, acting on careful instruction from Secretary of State Acheson, has told the French Foreign Office that the United States considers it absolutely necessary to stop this fighting in order to keep it from playing into the hands of the Communists.

Caffery said he was authorized to pledge the full support of the United States to French plans for creating an anti-Communist government in Indo-China headed by Bao Dai, the former emperor. The United States might even be willing to consider economic help to such a government if it kept out all Communists.

Not another reason why we are anxious to end this revolution is because we want the French to bring their army back from Indo-China to France to guard against a surprise attack from Russia. The French have between 100,000 and 200,000 troops in Indo-China and have sometimes been suffering 1,000 casualties a week.

No Pyramids for Bradley  
Contrary to press reports, General Omar Bradley, Chief of Staff, has never been a member of a pyramid club. And for a very good reason.

"At West Point," says Brad, "I taught mathematical probability. And even if I'd ever been invited to join a pyramid club, I wouldn't have done so, because the chances of a pay-off are so slim."

The Legion's No. 1 Lobbyist  
Young Representative C. L. Teague of Texas, decorated 11 times for bravery in the last war, took on a fresh battle recently with the No. 1 American Leg on lobbyist.

Teague made the Legion's tough and skillful John Thomas Taylor eat his own words during his testimony in favor of the Rankin pension bill.

Taylor based his plea largely on "precedents" for pensions voted by earlier Congresses.

Just a minute," broke in Teague. "While we're on the subject of precedents, let me read from the witness's testimony on this same question when the House Ways and Means Committee was holding hearings in 1939 on amendments to the veteran's Adjusted Compensation Act of 1924."

Teague proceeded to quote a colloquy between Jack Garner of Texas, later vice president, and Taylor, then as now the Legion's legislative representative. Taylor admitted at that time that the 1924 bonus bill as amended would be a quackshot against future pensions for World War I vets.

Pinned down by Garner as to whether the legislation would make future pensions unnecessary, Taylor replied: "No question about it."

When Teague finished reading from the record, Legion lobbyist Taylor looked like the Washington Monument had fallen on him.

"I just wanted to get that in the record for the benefit of colleagues who have asked me about it," commented Teague. "It doesn't mean I'm against caring for war vets who are in need."

Capital News Capsules  
To Stop Delation—A group of Western Senators headed by Jim Murray of Montana are working up a big anti-deflation program, including provisions for a large federal lending drive to get new capital at work on the expansion of industrial capacity....One of the most important points of the new Murray legislation will be authority for industry to write off all big new capital expenditures in five years or less. In other words—accelerated depreciation.

Lobbyist Dinner—The foundry industry threw a party for members of Congress the other night and sent out invitations in the name of Senator Capehart of Indiana, the juke-box king. But, of the many invited, only a handful showed up....A reporter telephoned the private dining room, but was told curtly they didn't want any publicity. He went up to the room anyway and spotted Senator Myers of Pennsylvania, Democrat; Congressman Engel of Michigan, Republican; and Congressman Patterson of Connecticut, Republican. Less than 20 people were in the room, and 15 of these were supposed to be foundry company executives. Later Senator Capehart admitted sending out the invitations—at the request, he said, of Richard Wagner of Indianapolis, president of the Electric Casting Company.

Congress May Growl—Secretary of State Acheson is in for new trouble with Congress, especially with the Appropriations Committee, over the Atlantic Pact. The State Department has decided not to give Congress too much detailed information on Europe's military needs for fear of a leak to the Soviet Union. Despite statements to the contrary, Acheson already has all the military information from European powers, but wants a blank check from Congress—for security reasons.

Exit From Austria—The western allies will send a message to the Russians by promising the withdrawal of virtually all occupation forces from Austria. British, French and American diplomats in London have agreed to suggest that their troops—and the Russians—be evacuated from Austria except for a token army in Vienna. The plan was decided upon because the Austrian government, convinced the allies there is no chance of a Communist coup overturning the present pro-western regime. The plan will be made public to the Russians as soon as the present conference on an Austrian treaty ends in failure—as seems certain shortly. (Copyright, 1949, The Bell Syndicate, Inc.)

Those Who Think Russians Will End Berlin Blockade in Obliging Spirit Are Due for Letdown

By DAVID LAWRENCE

Washington, April 21—Any thought that the Russians, having been impressed by the airlift over Berlin, will now obligingly end their blockade and thereafter allow things to go back to normal without a major negotiation will soon be dispelled.

The Soviets are hinting that they will lift the blockade but they have a price. They know the airlift is expensive. They know that America and Britain would like to be rid of that expense but of itself isn't a good reason for the Russians, from their viewpoint, to give up the leverage they may hold in the situation.

Wishful thinking in the United States regards the airlift as having impressed the Soviets to the point of abandoning their blockade. Already the argument is being made that it was worth all the expense just to impress the Russians. This is based on the assumption that the Soviets don't know what large airplane transports can do if a nation is willing to use that expensive method of carrying coal and other supplies which normally move by rail at a fraction of the freight cost.

The Soviets have maintained the blockade for a reason—to get the allies to negotiate a different settlement of the German issues than the British and American governments have been willing to make. The Russians are evidently willing now to try another approach to the negotiations—they will abandon the blockade in return for certain agreements.

The matter of what currency shall circulate in the eastern zone governed by Russia is not and never was the real issue. The Russians showed their hand last summer when they tried to get a conference to negotiate an over-all settlement of German problems. As the western allies move toward a solidification of their position in the three zones which they command it has become increasingly difficult for the Russians to force a reversal. Also there are signs that the counter-blockade is shifting the Russians in their zone.

The Soviets are ready to try negotiating again. The bait offered this time is a lifting of the

blockade which, it will doubtless be argued by the Russians, can save America a huge sum of money. The Russians have always wanted to take a proportion of their reparations from Germany out of current production but they undoubtedly would accept any other equivalent that now might be devised.

The request for certain products to be exchanged, possibly with Russian currency to be used, will come up in the negotiations. The Russian viewpoint has been and doubtless always will be based on materialistic considerations. It will not be surprising to hear the Soviets argue that, if the lifting of the blockade removes an item of \$1,000,000,000 a year, maybe a portion of that saving could be devoted to subsidizing trade into the Russian zone.

Some such scheme may be expected to emerge as the price of the lifting of the rail blockade. The theory that the Russians have suddenly decided to abandon one of their principal instruments of harassment without anything to show for it to their own people is so out of keeping with their customary diplomacy that it scarcely seems credible. Besides, another opportunity for harassment and the imposition of more costs appears in the Iran sector where trouble seems to be brewing already.

As long as the Russians do not have the atom bomb, they will not start a war. Hence the Soviet tactics are to frighten the democracies and keep them spending huge sums for armaments in the hope that such a policy will strain the economy of the United States and hasten the oncoming of economic depression. Then the Soviets figure they can infiltrate inside European governments without going to all the expense of marching their armies into western Germany and France. It is the maintenance of American production strength and the stabilization of the American economic system which offer the principal barrier to the spread of Communism in the world. The maneuvering over the Berlin blockade is an isolated part of an over-all strategy and Russia will be in no hurry to lift the blockade if they cannot get concessions on the trade front. ### Do You Remember

by SOPHIE MILLER

Wesley Hogan, sign specialist of 181 Abel street, has just shown to the Kingston City Police Commissioners by Aaron Cohen at the Red House on Monday, May 18, 1903. It is illustrated with old time "coppers" and personal character sketches, besides having a blue taffeta ribbon attached, holding an exquisitely made six-inch long wooden sign.

No doubt, much time must have been spent arranging this "Feed and Frolic" menu booklet for the lucky pages reads like this: "The Lucky Ones—Mayor Walter P. Crane—whose biz is to cut ice and with voters be nice! William D. Cashin—whose bluestone blocks never get him in 'rocks.' Ogden F. Waine—whose stars... well be there for he's the man of the hour, who's John R. Tammany—whose beef may be tough, but it's all meat, no bluff. Chief Stephen D. Hood—who's a man very wary and the Board's secretary. Corp. Counsel Philip Elting—whose counsel is wise, if not otherwise! Abraham Freeman, whose shirts, like his smile, should be worn all the while. George Wolven—whose 'four and feed our autos don't need Ralph Cohen, whose new devil wagon 'boals all' he's a braggart." J. Hardenburgh Roosa, whose 'sarcastic smile and paintings have style."

The menu itself runs like this, every item either pertains to an honored guest or to police work. "Feed—By Order—Police Commissioners. Blueprints on Cohen's Shell-out. Soup—Needles to be raised by a Crane. Celery, Radishes, Queen Olives, not for ornament! Baked Bluefish, bluestone trimmings a la Cashin. Beef, a la Mode, Tammany style Potato Scraps. Roast turkey a la Waine. Plowed dressing, nailed gravy. Crane-berry sauce. Clubbed potatoes. Flooded with Bling asparagus. Cream of the Council. Punch a la Red House. Salad—Lettuce and Tomatoes Handcuffed. Ice Cream, Roosa Coloring. Wovenated Cake. Nuts, from Ralph Cohen's Auto. Fancy Fruit, Freeman Quality. Escaped Cheese. Warranted Coffee. 38 Calibre Cigars."

A poem on another page runs like this: "Chill down the oysters, Wallow in the soup, Pile in the Bluefish, You're not the dupe. Leave no Beef or taters, Skin the turkey bone. Anything you see to eat, Don't let alone. And when all over, Let everybody bellow, 'Say Mr. Landlord, It's on the other fellow!'"

Back cover has some clever, printed sketches on Ogden Waine, Mayor Crane, John Tammany, Wm. Cashin, Chief Hood and Aaron Cohen, entitled "Six of the Bunch with apologies!" they add. "Note: The Artist (?) succumbed before completing the rest."

This little 41-year-old Police Frolic Dinner menu must be seen to be appreciated. Wesley Hogan found it among his grandfather's things and thought some of the old timers might enjoy reliving it again.

## 2 Liquor Probers Are Accused of Accepting Bribes

New York, April 21 (AP)—Discharge of two investigators for the State Liquor Authority accused of accepting bribes was announced last night.

S.L.A. Chairman John F. O'Connell said the dismissals were effective February 10—the day the two men, both lawyers, were suspended after their arrest at Auburn, N. Y.

Those discharged are Benjamin Herschdorfer, 43, of Syracuse, and

Nathan Greenberg, 50, of Brooklyn. The two men, free in bail pending grand jury action in Cayuga county, were seized by state police as they met at a hotel grill in Auburn with officials of the Port Byron American Legion Post.

O'Connell said that during the meeting—which followed a raid on the post's clubhouse by state police—the troopers saw money passed. O'Connell said the troopers saw a Legion official pass an envelope containing \$200 in marked money to Herschdorfer, who then allegedly passed it to Greenberg.

State police who raided the clubhouse said they found slot machines.

The two investigators, the S.L.A. charged, met with the Lo-

gion officials to discuss "distorting their reports in such a way that disciplinary action by the authority against the post could be escaped or minimized."

The S.L.A. gave the two men a formal hearing April 12 at Syracuse on charges that they made false reports, accepted a bribe and conducted themselves in a manner that would reflect discredit on the S.L.A.

In his statement last night, O'Connell thanked officers of the Legion post for cooperation in the case. The post has been fined \$25 on the slot machine charge but has retained its liquor license. The two disgraced investigators, who were appointed in 1935 from a state civil service list, were receiving base salaries of \$3,060 a year plus emergency compensation of \$515 a year.

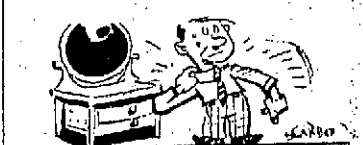

**Factory Employment Drops**  
Albany, N. Y., April 21 (AP)—New York's factory employment dropped 20,000 last month to an estimated total of 1,788,000, the State Labor Department reports. The largest decline was in the apparel and metal products fields. These were layoffs, however, in nearly all major industries, the department said yesterday.

**Derived From 'Moneta'**  
The word money is believed to be derived from "moneta," an attribute of the Roman goddess Juno, because the ancient mint was established in the temple of Juno Moneta.

America's Card Authority  
Written for NEA Service  
Albert A. Ostrow, of Brooklyn, N. Y., who is in charge of the classes on contract bridge at Brooklyn College, tells me that he receives mail from all over the country asking for information about the courses and his booklet, "Modern Basics of Contract."

The course at Brooklyn College is divided into three semesters, fall, winter and spring, and as a result they have beginners and intermediate classes all the time. Mr. Ostrow says it is surprising how quickly the students learn to execute difficult plays.

Our lesson hand today comes from one of his classes. East's bid of one no trump supposedly showed that he had the diamonds and spades stopped. South fully expected to defeat the hand in making his business double.

East won the opening lead of the three of diamonds with the king. Having been taught to establish the long suit immediately, he led a small spade and South went in with the ace. This placed the queen in the North hand.

South continued with the ace of diamonds which was won in dummy with the ten-spot. Declarer then led a low spade toward his jack, and when North ducked, the jack held the trick. South discarded the six of diamonds, and East next led a diamond. South won this trick with the ace and got out of the lead by returning his last diamond.

Now declarer took inventory. He had three diamond tricks, and he would have two spade tricks when he cashed the king. The ace and king of hearts would give him seven tricks for his contract, so he decided to play not for overtricks. He cashed the king of spades, on which South threw a small heart; whereupon declarer cashed the ace and king of hearts and led a small heart, throwing South in the lead. Thus South was endplayed. All he could do was to cash his ace of clubs.

Had North remembered that his partner had made a business double, he would have jumped in with his queen of spades, led a club, and he and his partner would then have taken at least eight tricks.

## SHOKAN

Shokan, April 21—Mr. and Mrs. Chris McGrath of Peckskill were Sunday afternoon callers at the Julia Winchell home in the village center. Chris, a veteran of war service in Europe and Asia with the 69th Infantry, is employed at the Brooklyn Arsenal where supplies are distributed to the various National Guard units in this state.

Extensive improvements at the Thor Frederickson home are practically completed and the Kingston couple plan to spend their week-ends here this summer. They have a grocery store on St. James street.

The people of the Greenville area (over the mountains beyond Peekamoose) are watching with interest the last case of Henry Terbus's dog which was bitten by a rabid fox and is being kept under observation. The dog had been inoculated six months previous to its encounter with the fox and apparently is still in a normal condition.

Jacob Knecht of the former C. A. Lyons residential property in Ashokan has added flower beds and made several other improvements to the grounds around his house. Jacob is quite a worker.

John Berlinger of Rosendale was numbered among the business callers in the hub of the reservoir country Tuesday.

Birthday last week included that of the Town of Olive which was founded April 15, 1823, from Shandaken, Marbletown and Hurley. A portion of this area was annexed to Woodstock in 1883 and other land was annexed from Woodstock the same year. Thus, for instance the Winchell's Falls and Tanager sections were included in Marbletown in early days. First supervisor of the new town was Gordon Craig, an uncle of the Kingston banking official of the same name.

Elmer Bush, who with his family returned from Coxsack a few weeks ago, is repainting his house along the north side of the "rail."

Callers in the village Saturday included John Buck, Jr., of Kingston and Philip Coletti, local chamber of commerce official, of West Shokan.

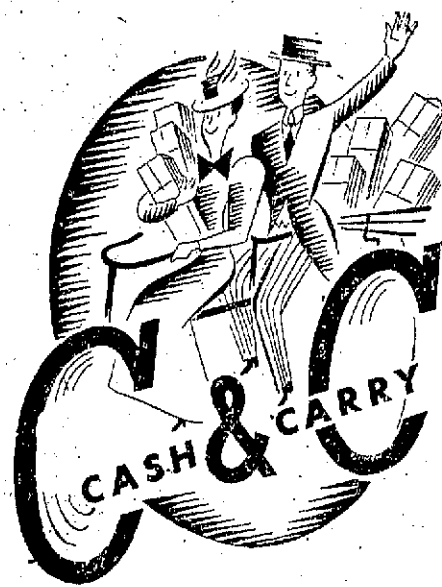

Fishermen continue to flock to the dividing weir despite the uncomfortably cool and windy weather. Presumably every one of them hopes to emulate Clarence Banks and his six-pound brook trout, as so temptingly depicted in that Freeman photo last week. Local residents thought the likeness of Frank Cohen, former Ashokan storekeeper and war veteran, was good, too. Well, there's going to be plenty of water down at the big ponds, for a long time to come. No doubt about that.

## New Tributes Paid To Late Rabbi Wise

New York, April 21 (AP)—New tributes to Dr. Stephen S. Wise were voiced today as the noted rabbi's body lay in state for the second day at his Free Synagogue.

Funeral services will be tomorrow at Carnegie Hall, where thousands are expected to pay final respects to the world-famous orator, Zionist and liberal crusader.

In a message to Wise's family, President Truman said "a valiant fighter in the cause of righteousness and good will among men is lost. To you and to all who mourn with you, I offer this assurance of deepest sympathy."

Dr. Wise, 75, president of the American Jewish Congress and

the World Jewish Congress, died Tuesday.

More than 1,000 mourners viewed his body, which lay in front of the pulpit from which he delivered sermons for 42 years.

Gov. Thomas E. Dewey, expressing his sympathy, said America has lost "a leader who constantly fought on behalf of freedom-loving peoples to obtain the priceless heritage of human rights."

Son, Robert F. Wagner (D.-N.Y.) said Dr. Wise was "ever-striving to bring to full realization the American dream of democracy."

In accordance with a wish expressed by Dr. Wise shortly before his death, music at the funeral services will include "Esh-kavenu," a prayer from the evening liturgy, and "El Mole Rachamin," a traditional Jewish prayer of mourning.

Dr. Chaim Weizmann, president of Israel, is expected to be among those present. City police and state troopers will provide an escort to the Westchester Hills Cemetery at the Free Synagogue, Hastings, N. Y., where Dr. Wise will be buried.

### Sleeve-Valve

In the newest sleeve-valve internal combustion engine, the ports are in two semi-cylindrical sleeves instead of a single cylinder. This arrangement permits expansion of the sleeve and eliminates the sticking and binding that were drawbacks in earlier sleeve-valve engines.

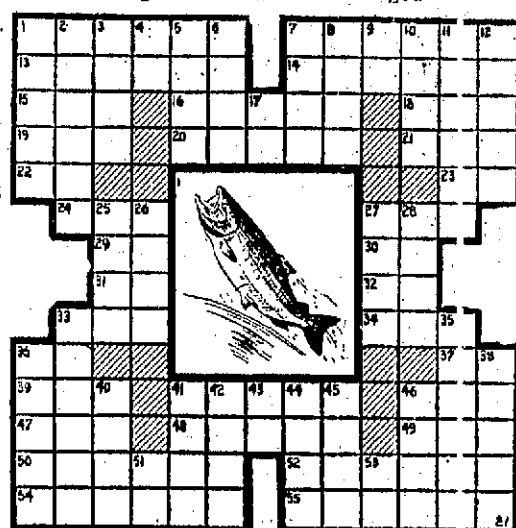

### Tomato Plants

In the early spring more than 20,000,000 young tomato plants raised in southern Georgia are shipped by air and rail express to widely scattered regions throughout the United States for replanting, according to Railway Express.

## Safety Parley Is To Feature Tests On Drunk Drivers

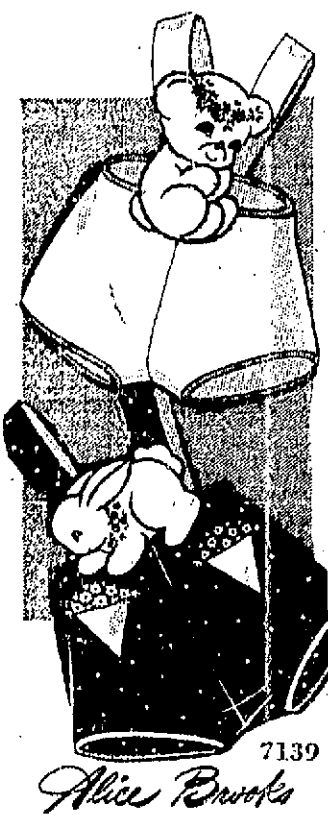

The Central New York Safety Conference to be held in Syracuse, May 9-10-11, will feature a session on chemical tests for intoxication on Tuesday afternoon, May 10, at the Hotel Onondaga, which will be attended by law enforcement officials throughout the state.

R. N. Harger, professor of biochemistry and sociology, Indiana University Medical Center, Indianapolis, Indiana, and inventor of the well known Drunkometer, will demonstrate the use of this device to determine the degree of intoxication of those who drive after drinking, using drinking subjects. Following Professor Harger's demonstration, James M. Barrett, chief, Bureau of Police, Division of Safety, Albany, New York, will discuss the practical application of these tests by police departments, and David Fraser, well-known Syracuse attorney, will discuss the legal aspects. Judge Truman H. Preston, traffic court of Syracuse will preside.

The Safety Division, Syracuse Chamber of Commerce and the Central New York Chapter American Society of Safety Engineers, sponsors of the conference, are stressing the importance of this session regarding drunk drivers. "Statement Regarding Drunk Drivers" by the National Committee for Traffic Safety, Chicago, Illinois, as follows:

"Driving while under the influence of an intoxicant is much more hazardous than the American public realizes. Our attention is focused on the frequent cases, who kill or injure. There is a vast number of reputable citizens who operate motor vehicles after moderate use of an intoxicant. While they are not drunk in the common sense of the term, the driving ability of many of them is measurably impaired. Better understanding of, and a solution for, this problem must come with both kinds of driver."

## Schirick Moves To Get Old Cases Off Court Calendar

Cases beginning with No. 13, which appear on the "strike-off" calendar at the present term of Supreme Court, will be called on Monday morning in an effort to clear up these cases which have been on the calendar for over two years, Justice Harry E. Schirick announced today.

Justice Schirick stated that these cases would be moved to the head of the day calendar and must either be disposed of or stricken from the calendar when reached.

Strike-off cases for several terms have been placed "at the foot of the day calendar" toward the end of each trial term and as a result "never are reached" for disposition and are carried over term after term, Justice Schirick said.

He indicated he would devote the entire week to disposition of these old cases.

At the opening of court this morning, summations were begun in the negligence action brought by Raymond Schuler against Aaron Newhoff and another, in action to recover damages for injury, loss of wages and for damage to the Schuler truck which was involved in a collision with one of the meat packing trucks south of Port Ewen in 1944, Cashin & Ewig appear for plaintiff and Carter & Conboy with Judge A. J. Cook of counsel appear for defendants.

A negligence action brought by Inter Fuel Oil Heat & Power Company, Inc. against George Farber, was announced settled.

## Plan Would Oust Inefficient, Save U. S. 600 Millions

New York, April 21 (AP)—Weeding out inefficient government employees would save the United States \$600,000,000 a year, former President Herbert Hoover says.

Urging this economy, he suggests that \$6,000,000 of the savings be used to raise the salaries of top officials as an incentive to run their departments more efficiently.

Hoover, head of the Commission on Organization of the Executive Branch of the Government, made this proposal last night in one of a series of C.B.S. broadcasts discussing the commission's reports.

He said the government buys about 3,000,000 articles a year for which it pays \$10 or less each and the red tape on each purchase costs over \$11.

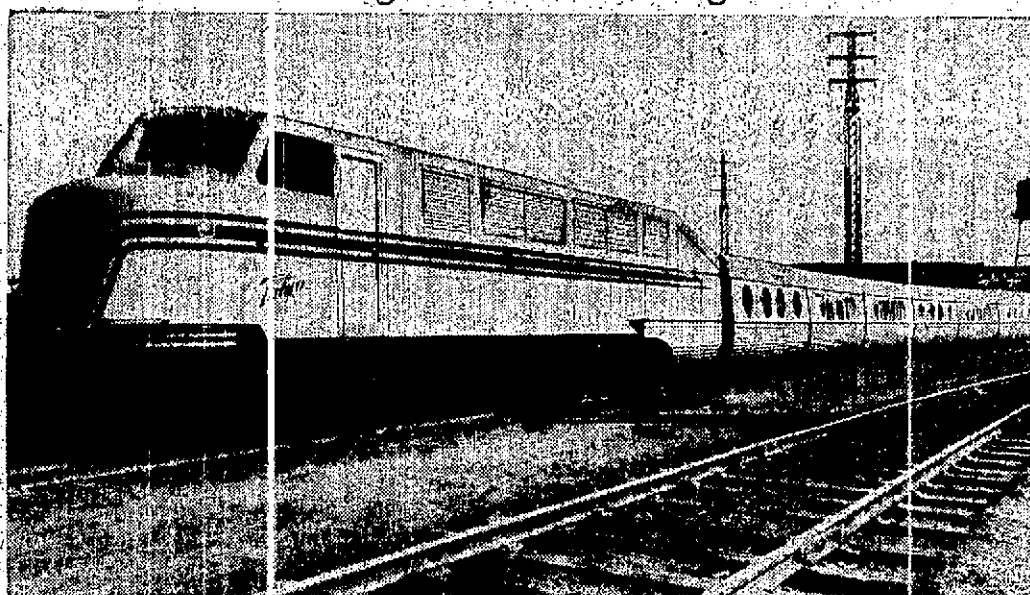

Hoover said establishment of a general accounting service would concentrate government bookkeeping and make it possible to drop from 10,000 to 12,000 employees now keeping accounts.

He said that under the present bookkeeping system "there are 23,000 government employees that do nothing but take care of red tape"—hiring, firing and promoting other employees.

Hoover said there is one personnel worker for every 78 employees—probably ten or 15 times higher than any private business in the U. S.

## New Low-Slung Streamliner Hugs the Rails

The first train ever built in America based on the Spanish "Patentes Talgo" is now ready in Berwick, Pa., for testing and demonstration across the nation. Built by the American Car and Foundry Co., the revolutionary streamliner literally hugs the rails. The locomotive is two feet lower than a standard diesel-electric and coaches four feet lower than present-day equipment without loss of interior space. Floor level in the coaches is only 18 inches above the rails.

## Local Death Record

Frederick William Segler died Wednesday at his residence in Atwood. The body was shipped by A. Carr & Son to Elmhurst, L. I., for funeral and cremation at the Fresh Pond Crematory Wednesday night.

## Greek Is Given Life in Prison

Athens, April 21 (AP)—A Greek court at Salonika sentenced Gregory Staktopoulos, a Greek newspaperman, to life imprisonment today for complicity in the murder of American Correspondent George Polk, according to advice reaching here.

These reports said the accused Communist triggermen in Polk's killing last May, Adam Mouzenides and Evangelos Vasvanas, were sentenced to death. They have not been arrested and were tried in absentia.

Staktopoulos' mother, Anna, who was accused of complicity with her son, was acquitted. Polk, correspondent for the Columbia Broadcasting System in the United States, was found shot in Salonika Bay last May after telling friends he was on his way to interview Markos Vamvakides, then the leader of Greece's Communist guerrillas.

During the trial, Staktopoulos, a former Communist, admitted he was with Polk the night of his death, but contended he was an unwitting tool of the Communists. The prosecution contended Polk was killed in a boat in the bay, after he consented to be blindfolded and bound as part of his effort to get through to Vamvakides.

## MODENA NEWS

Modena, April 20—Contributions from the recent annual Red Cross campaign for funds totals more than \$169 from the first election district in the Town of Plattekill. Mrs. Lester J. Arnold was chairman of this town. The sum of \$150 was set for the district.

The dance which was scheduled for last Wednesday evening, sponsored by the older group of Modena 4-11 Club members, was cancelled, owing to Holy Week services. The dance will be held Wednesday, May 11, in the Modena Hall, and will be in charge of the club girls.

Mrs. Lester Wager, Ronald and Kathleen Wager visited Mrs. Catherine Denton in Highland Friday.

Mrs. Alvin Matheson was a dinner guest of Mr. and Mrs. Alvin Shults Thursday.

Mrs. Fred Bernard accompanied Mrs. Beulah Thompson, Mrs. George Sisti and Mrs. Mae Lozier of Plattekill, to Stone Ridge recently where they attended a tea and meeting of the Elster County Service and Hospitality Committee.

Charles Hilstead, who has been a patient at Benedictine Hospital, Kingston, during the past weeks, underwent a second operation Friday.

Mr. and Mrs. Dimitrios Kevakis and son Stanley of Brooklyn, were

among guests entertained at the home of Mr. and Mrs. Tony Mouzithras and family over the Easter holiday.

Mr. and Mrs. Preston Paltridge and family entertained relatives at their home Sunday.

Mr. and Mrs. John Davis of Lloyd, Mrs. Karen Sanlieven of New York, were among the visitors at the home of Mrs. A. D. Wager and daughter, Easter Sunday.

Mr. and Mrs. Roy DuBois and daughter, Mary Lou, visited Mrs. Martha Bandon at the Hanbury, Conn. Hospital, Sunday.

Robert DuBois, student engineer at the Wesleyan University, Virginia, spent the Easter holiday at the home of his parents, Mr. and Mrs. Simon DuBois.

Mrs. Bonita Monell of Edinburg visited her mother, Mrs. Lillian Conner last week-end.

Miss Shelby Hurecourt, who has been absent from school owing to illness, has resumed attendance at the Wallkill Central High School.

Mr. and Mrs. Carl Sebel and daughter, Barbara, of Poughkeepsie, visited Mr. and Mrs. Ransel Wager Sunday.

Paul Weber, Jr., of Newburgh, visited his sister, Mrs. Florence Hurley Sunday.

Mr. and Mrs. Clinton Hoffman and children, Marlene, Marilyn and Clinton Jr., have moved from the farm house on the Michael Lembo property, east of Modena, to Pleasant Valley. At one time,

it does seem simpler than having bands sewed on coat sleeves.

Answer: Eccentricities of fashion should not apply to mourning. The sleeve band has been accepted as correct for generations and is therefore in best taste.

Spelling on Envelopes

Dear Mrs. Post: Is it better form to write out the name of states in full on the envelopes of formal invitations and announcements?

Answer: Yes, definitely. Also, it minimizes the chance of a letter going to the wrong state.

Sometimes it is difficult to find the words we want to say in notes of thanks or condolence. Mrs. Post has written some model notes in a new leaflet, E-21. To obtain a copy send 5 cents in coin and a stamped self-addressed envelope to her care of The Kingston Daily Freeman, P. O. Box 99, Station G, New York 19, N. Y. Mrs. Post is sorry she cannot answer personal mail.

## Tired Kidneys Often Bring Sleepless Nights

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of appetite, restlessness at night, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with a burning and stinging sensation above there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 50 years. Doan's gives kidney action and will help the 10 miles of kidney tubes flush out poisonous wastes from your blood. Get Doan's Pills.

the Hoffman family occupied one of the cottages on the Matheson property, north of Modena.

Mr. and Mrs. Harrison Pierce of Hinesburg, Vt., spent a few days of the past week with the former's sister, Mrs. Lester Arnold and family.

Mr. and Mrs. Eugene Paltridge of Ardonia visited Mr. and Mrs. Lester Wager and family Friday evening.

The severe wind which accompanied the rain and electrical storm Friday afternoon, left considerable damage in its wake. A large maple, bordering the highway, on the farm of Michael Lembo, east of Modena, was blown

down, and a piece of timber from the building struck Byron Paltridge, a workman on the farm. An X-ray disclosed cracked ribs.

A quercus passed under it with a large car. Other damage of lesser nature was reported. Electrical and telephone services were interrupted over a period of hours when workmen and Central Hudson crews removed the debris from the highway. Traffic was blocked for a short time.

### 'Smartest Horse In the World' on Vandeville Show

Pat Henry and his trained stallion "Gold Tony," billed as "The Smartest Horse in the World," will appear on stage at the Broadway Theatre on Friday and Saturday, April 22 and 23, as headliners on the special Easter week vaudeville show.

The big Palomino horse, written up in Ripley's "Believe It Or Not" for his ability to drink a bottle of soda pop, is the only horse trained to carry a rope in his mouth and rope a calf. That trick—with Pat Henry substituting for the calf—will be part of the stage act.

Also starring on the special holiday bill will be Adrienne, the "Champagne and Orchids" girl of television. She has starred for nearly a year on the DuMont television network in her own nightly video show of songs and sophisticated chatter, ranking among the pioneer top names on that entertainment medium.

One matinee and two evening performances will be presented on Friday and Saturday in addition to the screen attraction "Texas, Brooklyn and Heaven" with Guy Madison and Diana Lynn. Friday night at 7 o'clock, immediately preceding the first evening show, another in the series of eliminations for the "Song of 1949" contest will be held, with another four contestants trying for the \$1375 worth of prizes. The contest will be broadcast.

Another unusual act on the bill will be the Adamson Duo, a Swedish "perch" act imported several years ago by the Ringling Barnum and Bally Circus. For their billing of "Lady of the Moon," the Duo—a man and woman—appear in "Buck Rogers"-type costumes. The girl works atop a steel pole which her partner holds in his belt—doing a spectacular series of spins and whirls, holding on with one foot, and as a climax with the strap held in her teeth.

Comedy will be supplied by D'Arco and Gee, who do a song and slapstick routine built around their size; Johnny D'Arco is tall and heavy set, Parker Gee is tiny.

#### Begin Active Training

On Saturday, April 16, the first group of Air Force Reserve Officers to attend Active Duty Tours for the year 1949 arrived at the 2232d Air Force Reserve Training Center, Stewart Field, Newburgh. The active duty training is being done this year on an individual basis. Officers who applied for active duty and have been accepted, are being given on-the-job training in their individual MOS's. Each officer upon arrival is given an assignment to some particular section, either with the Base or the Training Center. For the next 15 and in some cases 30 days these men will report to taking and giving orders in the same type of job they held during wartime.

Huckleberry Finn's adventures took place on the Mississippi river.

## THE RUMINATOR

A Column of Contrary Opinion  
By HUMPHREY B. NEILL

New York, April 21 (AP)—Stock prices dropped fractions to 1/2 points early today when a sudden wave of selling broke over the market.

The full force of the selling soon spent itself but leading issues continued to be sensitive to even minor pressure. A handful of stocks managed a feeble recovery.

Turnover picked up rapidly on the decline.

Brokers reported that no one factor appeared to be responsible for the selling. Rather, they said, the price slide seemed to be the culmination of a series of developments. Selling was not limited to professional activity but hit the market from all angles, including the general public.

Failure of the market to respond to numerous favorable earnings reports and extra or increased dividends was mentioned as a depressant. Other quarters spoke of the sharp decline in first quarter profits for American Woolen and the reduction in the price of custom smelter copper.

American Woolen dropped around 2 points and Union Pacific about as much at one time. Lower around a point or so were U. S. Steel, Youngstown Sheet, Goodrich, Firestone, Phelps Dodge, du Pont, Allied Chemical, International Paper, Southern Pacific, Sinclair Oil, Gulf Oil, W. S. Gypsum, and Illinois Central.

American Telephone steadied after yesterday's drop of 1 1/2 points.

Lower in the curb were United Light & Railways, New Mexico & Arizona Land, Niagara Hudson Power, Electric Bond & Share, Cities Service, and Arkansas Natural Gas "A".

Eighty-odd years ago, William Stanley, Jevons, noted English economist and logician, wrote a simple statement of 29 words.

Let us may think the contrary-opinion theory is new, let me quote these words of Jevons: "As a general rule, it is foolish to do just what other people are doing, because there are almost sure to be too many people doing the same thing."

This statement came to mind recently when I ran across several articles in business magazines concerning the fast-growing popularity of investment trusts. Could it be that "too many people will be doing the same thing" in the years to come? Will investment trusts become too crowded?

It seems that while a dead calm envelopes Wall Street, a brisk breeze is favoring salesmen of investment-trust shares. While one man's loss may be another's gain, it is difficult to trace any logical connection between a dull stock market and a lively investment trust business.

Numerous writers recently have been attempting to explain "what's wrong with Wall Street." Some writers appear to offer as a remedy these mutual pools of investors' funds. In the former business, the stock market awaits the voluntary act of the investor. In the second, the investor is approached and sold stock with appealing arguments. One is a service business, the other a merchandising business. Quite different, indeed.

It may be informative to discuss these subjects having to do with the public's investments.

First, Wall Street and the stock market.

With respect for others' opinions, the Ruminator nevertheless protests that there is nothing wrong with Wall Street, or the stock market. Nothing wrong, that is, that a few thousand orders won't cure. Business is poor, and many brokers are losing money. That is always true when markets are dull and low in volume of transactions.

Notwithstanding, Wall Street is accurately reflecting the political and economic situation which currently prevails. The stock market does not make conditions, it anticipates them, or reacts to them. When the outlook brightens, stock prices will rise; if it worsens, prices will fall.

Markets reflect the composite opinion of facts, news, and beliefs. Markets reflect the shifting appraisals of the FUTURE. Opinions are changeable—seldom constant—and are continually swayed by hopes, fears, and ANTICIPATIONS. Thus it is that economic and other factors must be deciphered for their influence upon human emotions, and not solely weighed in the scale of cold logic.

A dull market which fluctuates narrowly, and remains on a dead-center, as at present, is reflecting on the surface a balanced composite opinion. It reveals, likewise, public indifference and lack of interest.

### NEW PALTZ

New Palitz, April 21—Mrs. Abram E. Jansen arrived at the home of her daughter, Mrs. Howard Van Winkle in Stone Ridge Friday after spending the winter months in Orlando, Fla.

There will be a district meeting of the Home Bureau on electing kerosene camps at the social room in New Palitz High School Friday at 1:30 p. m.

Mr. and Mrs. D. Wehr entertained Dick Wehr and a guest at dinner Sunday.

Mrs. Webb Kniffen called on her father, George M. VanVleet, in Kingston Sunday.

Bishop Donagan made his annual visit to St. Andrew's Episcopal Church, New Palitz, April 20 to administer the sacrament of confirmation.

A rag party for the benefit of the Reformed Church fund was held at the home of Mrs. Fred Drexel Thursday afternoon. Rings were cut and sewed to be woven into rugs. The rugs will be sold to help the Dutch Guild group. Tea and cake were served.

Easter breakfast was served to the children of the Reformed Church Sunday school by the Dutch Guild. Mrs. Francis Sutherland was committee chairman. Illustrated pictures in color of Easter were shown.

## Forest Fire Is Controlled at Base Of Overlook Mt.

Woodstock, April 21—A forest fire which was discovered about 11:30 a. m. today at the foot of Overlook Mountain was reported to be "pretty well under control" at 1:30 p. m.

The fire, discovered by a forest ranger, is at the foot of the mountain to the right of Mead's Mountain, House road. There are no buildings in the nearby area.

It was thought the fire might have been caused by young campers.

Rangers in nearby towers are checking the fire.

Byron Hill, forest ranger from Rosendale, was summoned. A so-called "Aaror" Van DeBogert, Jr., fire ranger of District 13, Woodstock. Two fire trucks from Woodstock also were dispatched when it was feared that the fire might threaten private homes.

### Urges Housing Action

Washington, April 21 (AP)—Senator Taft (R-Ohio) told the Senate today that 45 per cent of the people of the nation can't afford to build a four-room house. He urged the cost around \$7,000. Urging approval of a pending housing measure, the Ohioan said he thinks Congress must act speedily on housing aid.

## Miss Reed Gives Morning Address To Presbyterian

Miss Esmeline Reed, minister's assistant of the Church of the Covenant, Erie, Pa., addressed more than 100 women attending the 70th annual meeting of the North River Presbyterian Society at the Roundout Presbyterian-Warrenton Baptist Church in Kingston today.

Miss Reed, representing the Board of Christian Education, urged the women not to think so much of leading the youth of the church but rather to think of depending upon them.

"Nothing makes them grow as much as to give them tremendous responsibility. Lead on to the young people jobs so big they've got to stretch to reach the goal," she said.

Speaking of women's work in the church, Miss Reed urged the women to meet together often in one large group including all of

the individual circles. Speaking of the tendency to form into exclusive little groups, she said, "It's fun to be cozy and have a good time together, but the Church of Christ is bigger than that."

Mrs. Reed reviewed the work of the Board of Christian Education, telling of the new Sunday school curriculum, the magazines and other publications, the theological seminaries, Presbyterian Colleges and other activities of that group. Other parts of the morning program included reports from the Fellowship Department and the Program Department.

Mrs. H. Howard Black of Wappingers Falls, president of the North River Presbyterian, presided. The offertory solo, "Hear Thou My Prayer," was sung by John McCullough of this city.

Members of women's groups from Poughkeepsie, New Hamburg, Cornwall, Marlborough, Newburgh, Freedom Plains, Pleasant Valley, Little Britain, Highland and Pine Plains attended the meeting, which continues this afternoon with further reports and an address by Mrs. Donald C. Gordon, missionary to Brazil.

### Calls Them 'Performers'

Washington, April 21 (AP)—The State Department said today that delegates to the Communist-inspired "world peace conference" in Paris are "performers" following a dictated party line. A department statement formed the conference one of a series designed to "make people think that the Soviet Union alone favors peace."

## Peach Fruit Buds Saved From Cold

Ithaca, N. Y., April 21—Fruit growers of the state can now give a sigh of relief. There is less danger of cold injury to peach fruit buds than seemed likely a few weeks ago, says Prof. L. J. Edgerton of Cornell University, pomology department.

The professor, along with most of the fruit growers, felt real anxiety early this spring. They feared that the buds would progress too far with the warm weather and then would be nipped or killed by a sudden drop in the temperature. However, the weather turned cooler gradually so the buds were held back and their resistance increased.

Professor Edgerton stated that some of the harder buds would withstand 12 to 14 degrees temperatures, even as late as the "pink" stage. "A light freeze now shouldn't do them a bit of harm, as long as the flower haven't opened," he remarked.

He pointed out that some buds were damaged or killed in the Hudson valley by loss of hardiness

### Nutrition Committee Dinner Meeting on 27th

The annual meeting, followed by a dinner, will be held by the regional Nutrition Committee in Spring Valley at the high school there, on Wednesday, April 27.

Starting time of the meeting is 4 p. m. and the dinner 6 p. m. Guest speaker will be Dr. Robert S. Goodhart, scientific director, National Vitamin Foundation. His subject will be "Nutritional Requirements and Physiological Stress."

A skit by the home economics class of the Pearl River School will be presented. During the afternoon session, a panel discussion on legislature, school lunch, dried milk solids, and the enriched bread program will be carried on.

Included in the various exhibits to be on display will be on dry milk made by the students of New Paltz State Teachers College.

Individuals interested in the discussion may make reservations with Mrs. Kate Johnson, P. O. Box 122, Monsey, Rockland county, or Miss Jessie Frisch, chairman, New Paltz.

are opposed to the program, but the platforms of both the Democratic and Republican parties endorse the idea.

Bricker shouted that "there is something wrong" with those platforms if Congress defeats his anti-segregation amendment.

"If we are for it (civil rights), let's be honest about it," Bricker demanded. "If we aren't for it, let's also be honest about it."

Several backers of Mr. Truman's civil rights program have announced they are going to vote against the amendment because they feel it would kill the housing bill. They want civil rights handled in separate legislation.

Bricker said: "If it kills the bill, well and good—then there is something wrong with the bill."

### Assails Section

Bricker sharply assailed the whole public housing section of the bill. He said it provides for

an "endless program that just feeds on itself."

Senator Capchett (R-Ind.), started the argument over the Bricker-Cain amendment by announcing he was going to vote for it. He said the public housing program would be financed in part from taxes collected from the people generally, and that on that basis the government "has no right to deny any class of people the right to live in those houses."

Senator Tyne (R-Minn.) contended there is nothing in the bill which would discriminate against Negroes. Capchett shot back there is nothing in the bill, either, to prevent discrimination.

Senator Taft, Bricker's Republican colleague from Ohio, told the Senate he was going to vote against the amendment because he could see no justification for it.

Taft, one of the sponsors of the housing bill, said there has been no discrimination in the renting of public housing in Ohio. He added that if anything, Negroes in that state have been given a preference.

## College Courses Are Available

An unusual opportunity to complete recognized requirements for degrees in Engineering Science and Industrial Engineering Administration, at the expense of the Government, is available to Air Force Reserve Officers. It was announced here today by Major R. Lee, Commanding Officer of the 167th Composite Squadron, U. S. Air Force Reserve.

These two year courses are scheduled to begin in September at the U. S. Air Force Institute of Technology in Dayton O.

The courses are on an advanced undergraduate level and are open to Air Force Reserve

Officers who have completed approximately two years of college. The Engineering Science Course requires credits in physics, and mathematics including calculus. Trigonometry and algebra are prerequisites for the Industrial Engineering Administration Course.

Interested individuals may obtain further information by contacting Major Lee or attending the next regular meeting of the Squadron which will be held at the American Legion Memorial Building, this city, April 26, at 8 p. m.

Prompt action by prospective students will be necessary, however, it was stated, because applications should be forwarded within the next two weeks.

**Rice at 78th Reunion**

Brigadier General John K. Rice, deputy commander of the 78th (Lightning) Division will be principal speaker at the reunion of the 78th Division to be held at the 71st Regiment Armory, Park avenue and 34th street, New York city on Saturday, May 7. Advance reservations should be mailed to the National Secretary, John Gagan, 997 President street, Brooklyn, N. Y. Many Kingston and Ulster county veterans of the Lightning Division will attend the reunion. Heading a large county committee are Harry Kingsburg, John Scully and Capt. Edward Groves.

## Chairs for Convalescents

Kingston Post 150, American Legion, has two wheelchairs to loan to convalescents, especially those suffering from leg injuries or ailments. Veterans have preference on borrowing the wheelchairs, but they will be loaned to others if available on request, the same as the hospital beds purchased by the Legion as a service to the community. From left are Morgan Ryan, service officer and a nominee for the position of commander; Harold Sheehan, wounded veteran of World War 2, who has been proposed for a vice-commandership and Donald G. Moore, commander of Kingston Post. Legionnaire Sheehan, although totally disabled from spinal injuries suffered in battle, is vitally interested in veterans affairs. His good humor and sparkling wit grace assemblies throughout the county. He brushes off reference to his physical handicap with: "Sure, a man isn't totally disabled as long as he can talk—me anyway." At the Legion meeting this week, Sheehan introduced the resolution that put the post behind the Kingston Housing project for the Twelfth Ward.

### Atlantic City's Hotel Strike Ended by Union

Atlantic City, N. J., April 21 (AP)—This resort's first hotel strike and Restaurant Workers Union

in 20 years is all over today. More than 1,000 workers have gone back to their jobs without a contract.

dissolved their 13-day-old picket lines at noon yesterday. Irving Gould, Local 508 president, and Harry Haggerty, president of the Bartenders' Local 491, said in a joint statement they are

"hopeful negotiations will go forward and a new agreement (will be) negotiated within a reasonable time after the men return to work."

Brighton Hotel and chairman of a hotel negotiating committee, said the "wage rates paid those who are reemployed will be exactly the same as before the strike."

### Disability Benefits

Plans for a lecture on the Muller-Condor Disability Benefits Act, to be held on May 2 at Cornell University for interested

groups in the central New York area, have been announced by Dean M. E. Catherswood of the New York State School of Industrial and Labor Relations. The lecture will be given by Miss Mary

Douglas, chairman, New York State Workmen's Compensation Board and will be concerned with a presentation and discussion of the provisions, administration, and requirements of the new state law.

Governor Favors  
Bill to Create New  
Protection Board

Albany, N. Y., April 21 (AP)—New York today has a new weapon to fight water pollution, which Governor Dewey calls a "growing menace to the health, happiness and economic welfare of our people."

Dewey signed a bill yesterday creating a state board to inaugurate and enforce a long-range campaign against pollution in the state's waters. The board is empowered to establish standards for disposal plants and to enforce abandonment of pollution practices.

Dewey said in a memorandum the board will take several years to get started.

## JACK W. DOUGHERTY

Switched to Calvert 10 Years Ago—and Is Glad He Did!

CANTON, Ohio—Jack W. Dougherty, Canton sales manager, isn't surprised at the nation-wide "switch to Calvert." He says, "Sooner or later folks will discover Calvert Reserve really does taste better. It's a smart switch!"

CALVERT RESERVE Blended Whiskey—80% Proof—65% Grain Neutral Spirits, Calvert Distillers Corp., New York City

"to effectuate the long-range program which this proposal contemplates."

The Departments of Health and Conservation, which are now vested with authority and responsibility for the health and conservation aspects of pollution control are both convinced that present laws are incapable of coping with the problem.

Although the new law takes effect immediately it maintains present health and conservation controls over pollution until April 1, 1950.

The state commissioner of Health will be chairman of the new board. It also will include heads of the Conservation, Agriculture, Commerce and Public Works Departments. All will serve without additional compensation.

The bill appropriates \$70,000 for the expenses of the board for the present fiscal year.

## Stocks Are Below '48

Albany, N. Y., April 21 (AP)—Stocks of poultry, meat and eggs in cold storage warehouses on April 1 were below levels of a year ago. But butter and American cheese holdings were more than twice as large, the State Agriculture Department reported yesterday. Frozen poultry holdings dropped from 20,205,000 pounds to 16,530,000; meat from 48,025,000 pounds to 30,588,000, and eggs by 24 per cent to 34,700 cases of 30 dozens each. Butter holdings on April 1 were 1,129,000 pounds, three and one-half times greater than a year ago. American cheese was up 50 per cent to 420,000 pounds. The 12,493,000 pounds of frozen fish on hand April 1 was two per cent below the 1948 holdings on that date.

Home Bureau Has  
Folklore Speaker

Woodstock, April 20 — Dr. Lewis C. Jones, director of the Farmers Museum, Cooperstown, will be the guest speaker at the annual Folklore meeting of the Woodstock Home Bureau Unit Friday, June 3, at 8 p. m. in the Library. Dr. Jones is the author of "Spooks in the Valley," a book of folk history and folklore at Teachers College, Albany and for some time was the editor of Folklore magazine.

According to the Ulster county folklore chairman, Neva Shultis, Dr. Jones has a tremendous fund of information on his chosen subject, and it may be expected that this year's meeting will bring the largest attendance so far.

At a regular meeting held last week in the American Legion club rooms, the unit voted a \$10 donation to be given to the Legion for the use of its rooms. Plans were made for the Home Bureau Achievement Day when all units in the county will take part in an exhibition to be held in Kingston. The local group will have on display, gloves, bags, and other articles made during the winter months.

Preliminary discussion was held by those present with regard to the part they will take in the Ulster county fair.

A brief talk was given by Ann Carolan regarding the Home Bureau's responsibility in the community insofar as civic matters are concerned. Miss Carolan and Edna Thurber were hostesses for the meeting and served refreshments.

In attendance were the Misses Josephine Neher, Hannah, and Lottie Dock, Dora Klein, Bessie Stowell, Anarina Boyd, Ida Risley, Effie Happy, Lottie Shultis, Muriel Schmid, Leona Montaigne, Marie Kreyer, Edith Lasher, Dorothy Nicholas, Agnes Wagner, Anna Mae Bradley, Daisy Montgomery, Nora Holdridge and the Misses Neva Shultis and Teresa Kessel.

Congressman Dies  
In F-80 Crackup

Albuquerque, N. M., April 21 (AP)—A crashing jet fighter plane carried Rep. Robert Lewis Coffey, Jr. (D-Pa.) to death here late yesterday.

The crackup of his F-80 Shooting Star was tentatively laid to a partial power failure. A thorough investigation was ordered.

Coffey, a 30-year-old wartime hero and first term in Congress, had landed at Kirtland Air Force base to refuel. His ship rose only 25 feet, wavered and plunged to the ground as he took off on the final leg of a flight to March Field, Calif.

The Johnstown, Pa., flier was on a cross-country training flight, undertaken while the House is in recess. He held the rank of colonel in the Air Force Reserve.

A helpless witness to the crash was Lt. Col. William Ritchie, friend and companion of Coffey in European air combat during World War II.

Ritchie, taking off behind Coffey in another F-80, was compelled to circle overhead for an hour. This was to use up fuel in

the wing tanks, necessary before he could land.

"The plane (Coffey's) just settled at the south end of the runway," Ritchie said in describing the crash. "I could see it strike a stream of sparks, like those from a grinding wheel. Then it bounced over into the ravine."

The plane did not explode or burn. A crash crew found the body of the flier wedged inside. He was killed instantly. The accident happened about 4:40 p. m. (M.S.T.).

The British took the island of Cyprus from Turkey in 1878 as part of a plan for the introduction of reforms in Asia Minor.

## GRANGE NEWS

## Patron Meeting

Accord, April 21 — Patron Grange will hold its next regular meeting at the Dutch Reformed Church on Monday evening, April 25, at which time the lecturer's hour will be open to the public for the showing of a series of moving pictures by Archie Hall Davis who will explain about his tour through the continent of Africa.

## Leaves From Boyle's Notebook

By HAL BOYLE

New York (UP)—In a small hospital lecture room a dozen adults were earnestly trying to burp together.

"Come on, out with it now!" urged their teacher, a big, genial, florid-faced man with a scar on his throat.

"Buh-buh-buh-uhrrrrrr!" said the class.

"Fine, said the big man. "Now—buh-buh-buh-buh-buh!"

"Good. Now—buh-buh-buh-buh-buh!"

And put your body into it."

"Buh-buh-buh-buh-buh!" chanted the class.

Each of the ten men and two women in the class had a scar on the throat. Each had survived an operation for cancer of the larynx—the late Damon Runyon's ailment. Each had lost his "voice box."

One night a week they came to this class and struggled to learn to talk again. And they did it by first learning to burp.

"A burp is different from a belch," explained their teacher, Dan Meenan, a former Wall Street broker who also used to coach basketball at Columbia University.

"A belch is involuntary. It comes from the stomach. The burp is voluntary. It comes from the esophagus. You just have to make your gullet take the place of your voice box."

"Swallow some air. Then force it from your stomach up through your esophagus. Once you learn to make this burp sound, your tongue, teeth and lips can take it over. They can shape this one sound into any word you ever knew."

Most of the class were middle-aged or elderly. Cancer of the larynx rarely strikes young people. In the class were a truck-driver, a factory worker, a white-haired Irish factory supervisor, a retired woman schoolteacher, a Tennessee housewife, a 64-year-old textile manufacturer.

One by one they got up and made progress reports.

"I have gone...back to work...on the same job I held...for 37 years," said a small elderly man who worked for a public utilities company. "I even use...the telephone...now."

A grinning salesman of ship supplies boasted:

"I'm selling again...just as before. Business is...good...too."

"But do you still practise your exercises?" Demanded Meenan.

"I don't have to," the salesman defended himself. "I talk all day long...as it is."

Like Schoolkids

The class laughed like any group of schoolkids who have one over on the teacher. Meenan laughed with them.

Then he made the shy housewife get up and recite a Shakespearean sonnet—"Shall I Compare Thee to a Summer's Day?"

This was a real achievement.

Colony Is Distributor

A new distribution policy for Bellows products in upstate New York is announced by Roy R. Herrmann, vice president of Bellows & Co., Inc., Effective May 1, Bellows products will be distributed in upstate New York by Bison Liquor Co., Inc., 4 Elk Market Terminal, Buffalo; Colony Liquor Distributors, Inc., 16 Pine Grove avenue, Kingston, and 36 Broadway, Albany; and McKesson & Robbins, 235 St. Paul street, Rochester, and 218 West Willow street, Syracuse. Previously Bellows products had been distributed direct in this area.

The Navy organized Reserve includes 55 carrier groups, 25 patrol, 25 transport, 47 service, two photo and one blimp squadrons.

Meenan. "Aw, to hell...with it!" smiled the Irishman. That was the favorite phrase of the class when they began to tense up.

"To hell with it!" They all said joyously.

Sing Together

The class ended by singing "East Side, West Side" together. They were led by the textile manufacturer, who only a few weeks before had been so depressed he refused to go to his business.

Afterward Meenan explained how he himself, after surviving a series of five throat operations, had become interested in teaching victims of cancer of the larynx to talk again.

"Anyone with courage and stick-to-it-iveness can do it," he said. "And most can go back to their old jobs. I've taught some 300 people. Among them is the head of a stock exchange firm, still active."

"But there are only four classes

of this kind in the country. There should be many more. Cancer of the larynx used to be almost 100 per cent fatal. Now, if they detect it early, they cure 85 per cent of the cases.

"If you have to get cancer, pray you get it in your throat."

### Three Arrested For Check Theft

New York, April 21 (AP)—Two men and a woman were under arrest today in connection with the theft of more than \$50,000 in federal income tax refund checks from mail boxes here and in other sections of the country.

The arrests were announced by police and U. S. postal service inspectors.

They identified the three as Lucille C'Brien, 19, formerly of Camden, Me., and now of New York; Albert Allen, 30, and David Smith, 38, both of New York. Police said Allen was a soldier absent without leave from Fort Bragg, N. C. They said he also was known under the alias of Albert Ellis.

The three were charged with robbing the mails.

The thefts, police said, were heaviest in seven southern states, upper New York state, Connecticut and, most recently, in prosperous New York city neighborhoods.

Seizure of the two men followed the arrest of the woman when she attempted to pass a government check at a department store yesterday in payment for a lingerie purchase, police said. Under questioning she implicated Allen and Smith.

Postal inspectors estimated the trio had stolen more than 500 government checks with an average value of \$115 each. Usually the checks were pilfered from mailboxes in prosperous neighborhoods, police said.

#### National Council

The thirty-ninth annual meeting of the National Council Boy Scouts of America will be held this year at the Copley-Plaza Hotel, Boston, Monday and Tuesday, May 23, 24. Ulster-Greene Council will be represented by a party of nine headed by George B. Matthews, local council president. This is the first time the National Council has held its meeting in New England and plans have been made for the largest meeting ever held by the organization.

Herbert Bell of Milton, local council vice-president, Val W. Morrow of Muncie, scout commissioner and James M. West, mountain district chairman and Myron D. Keefe, Ulster-Greene scout executive will complete the official delegation. Messrs. Matthews, Bell, Morrow and West will accompany their husbands.

The program will begin Monday morning with the business meeting. Messrs. Matthews and Bell will participate in this meeting, having been duly elected as representatives to the National Council by Ulster-Greene Council. The convention banquet will be held Monday evening and it is expected that nearly 1500 persons will attend. Awards to nationally famous figures will be made at this time. The Ulster-Greene delegation will breakfast Tuesday morning with representatives from all councils in New York and New Jersey, which states comprise region two. Amory Houghton of Corning will preside at all sessions of the meeting as president of the Boy Scouts of America. Mr. Houghton is a veteran scoutmaster of more than 20 years service to youth. He travels all over the United States attending scouting conferences and events.

Ulster-Greene Council, with its delegation of nine persons to the meeting, will be among the councils having large groups present. The seventy-one councils of region two have been asked to send five per council, so once more Ulster-Greene and the Mid-Hudson Valley show the way.

#### 57 Killed in Quake

Santiago, Chile, April 21 (AP)—Tens of thousands of people rocked south central Chile Tuesday night killed 57 persons and injured 150. The Ministry of the Interior said 45 of those killed were prisoners in the jails at Temuco and Angol. Those two towns, about 350 miles south of Santiago, were the centers of the quake. Property damage was estimated to run into the thousands of dollars. This earthquake was the most severe in Chile since the great disaster of 1939 when 2,500 persons died at Chillan.

## Two Children Are Killed

New York, April 21 (AP)—Two children, being wheeled by their mothers in baby carriages, lost their lives and four other persons were injured yesterday when hit by a one-ton truck in the Bronx.

The truck skidded out of control on wet cobblestones and plowed into a group of women and children as they were crossing an intersection at 170th street and the Edward L. Grant highway.

Dead were Janet Gotsky, 2, and Barry Levy, 2. Their mothers, and another child and woman were injured. The baby buggies were smashed, and one of them dragged 50 feet. Police planned further questioning today of the driver, Giuseppe Vendetti, 48.

## Dwelling Units Added

New York, April 21 (AP)—The Regional Plan Association says some 413,000 dwelling units have been added to the New Jersey-

New York-Connecticut metropolitan area since 1940. The association said the additions raised the area's total of dwelling units to 4,100,000. The association is a research and planning agency. Since 1940, it said, New York city has added 53 per cent to existing housing, while the rest of the tri-state area has added 20.2 per cent.

The Indians and early settlers believed that no poisonous serpents would be found in the same area with the Oregon ash tree.

You can't make linens cost less...but you can make them last longer!

ONE WAY to beat the high cost of linens is to make the ones you have last longer!

And to generations of American women that means laundering with Clorox! The human body is so constituted that it functions best at temperatures of 60 to 70 degrees for those who wear civilized clothing, and at somewhat higher temperatures for unclothed people.

**BRIGHTEN UP MENUS WITH COLOR**

By GAYNOR MADDOX  
NEA Staff Writer

Here are two brightly colored ideas to brighten spring menus—cranberry jelly to jewel your breakfast muffins; golden young carrots to enrich your cookies.

**Cranberry Muffins**  
(Makes 12 Muffins)

Two cups sifted all-purpose flour, 3 teaspoons baking powder, 1/2 teaspoon salt, 2 tablespoons sugar, 1 egg, well beaten, 1 cup milk, 2 tablespoons melted butter, canned jellied cranberry sauce, cut in cubes.

Combine dry ingredients. Combine liquid ingredients and add to dry ingredients as quickly as possible, mixing only enough to dampen flour. Add 1 or 2 cubes of cranberry sauce; then cover with more batter—enough to fill muffin tins 2/3 full. Bake 25 minutes in a moderately hot oven (400 degrees F.).

**Carrot-Raisin-Nut Cookies**  
(About 5 dozen)

One-half cup shortening, 1 cup brown sugar, 2 eggs, 1/3 cup milk, 1 cup grated raw carrot, 2 cups sifted all-purpose flour, 1 teaspoon

at the home of Mrs. Howard's sister and family of Marlborough the Rev. and Mrs. John W. Tyssie, Valentine Garlickson and Nicholas T. Cocks attended the meeting of the Class of Orange at the West End Reformed Church in Port Jervis, Tuesday.

Courtesy Spencer of Scarsdale is spending some time at the home of his grandparents, Mr. and Mrs. Clarence Spencer.

Twelve were present at the Missionary meeting held at the home of Mrs. Roscoe Piekus last Thursday afternoon. The divisions were led by Mrs. Gerow Schoonmaker. The business meeting and program was in charge of Mrs. John W. Tyssie, president. Final plans were made for the Mission Conference of the

Class of Orange to be held in the church on Thursday of this week beginning at 10:15 a. m. At the close of the meeting refreshments were served by the hostess, Mrs. Piekus.

Several from here attended the Easter sunrise service at the Jordan Farm. The Rev. John W. Tyssie gave the invocation. The Rev. Cornelius J. Meyer read the scripture and the Rev. Richard Elino gave the Easter meditation.

A large crowd attended the Easter service held in the New Hurley Church Sunday morning. An interesting sermon was delivered by the pastor, his subject being "Has Easter Dawned on You?" Special music was rendered by the choir with a solo. The Holy City, rendered by Mrs. Alfred Wager. The church was

decorated by Mrs. Gerow Wilkin. Memorial flowers were presented in loving memory of the following deceased members of the Young Women's Club and the Ladies' Aid Society: Mr. and Mrs. Frank Schoonmaker, June Schoonmaker, Mr. and Mrs. Isaac Sutton, Mrs. Edgar Cronk, Mrs. William Wager, Nils Nelson, Lee Wager, Mr. and Mrs. James Radiker, Mary Thompson Medwin, C. Ira Thompson, John Nixon Davis, Lulu Birch, Mr. and Mrs. William Rotaling, Jessie Miller and daughter, Mr. and Mrs. John Sherwood, Mr. and Mrs. D. U. Fowler, and William Miller.

**A First Course**  
For a first course, tomato juice and stuffed celery sticks are usually very welcome. Season the

tomato juice with salt, freshly ground pepper, and a little celery salt. Use cream cheese to fill the celery and flavor it various ways; mix it with anchovy paste, or with minced canned pimiento, or with chopped chives, or with finely chopped salted peanuts. Be sure to dry the celery stalks

thoroughly before adding the filling; then cut each stalk in one or two inch sticks.

## Reds Try . . .

Continued from Page One  
China." The order was addressed to both Communist regulars and Red Guerrillas operating in South China.

No mention of the attacks on the British ships was made. The British ambassador had radioed the Red capital at Peking asking that artillery units be instructed to cease firing on the British ships.

The Red order of the day told the Communists to sweep forward in an offensive that will protect China's "sovereignty and territorial integrity." It instructed Red troops to seize all "war criminals," particularly retired President Chiang Kai-shek.

The announcement by the Communist chiefs left some room for negotiation on the basis of Red surrender terms rejected yesterday by the government.

## Will Make Local Peace

It stipulated that if any local region is willing to make peace on Red terms it will be accepted. The broadcast said also that if the government is still in Nanjing when Red forces surround the capital Nationalist leaders will be given another opportunity to sign a peace agreement with the Communists. Such an agreement would amount to outright surrender.

The Communist communique said that the order to fire was issued because the Nanjing government had rejected the peace proposal formulated in Peking.

The announcement charged the Nationalists refused to accept the peace terms because the Nanjing government still "obeys American Imperialists and Kuomintang (Government Party) chieftain Chiang Kai-shek in their effort to prevent the liberation of the Chinese people and a settlement of domestic problems by peaceful means."

Meanwhile the government information office released the text of the reply made yesterday to the Communists through the Nationalist delegation in Peking. The release was given as all branches of the government remaining in Nanjing prepared to flee.

The government stated that even if it had signed, Red peace proposals "narrow minded attitude and oppressive spirit" would have been unacceptable to both the National Army and the people. The reply charged that the entire proposed agreement "smacks of Communist military control of the entire nation."

Government officials were making preparations to evacuate all points along the threatened 650 mile Yangtze line. Acting President Li ordered the ministry of communications to prepare for the evacuation of all officials from Nanjing.

## Easter Drama Will Be Presented At Baptist Church

A drama, "Thy Kingdom Come," by Florence Converse, will be presented Sunday evening at 7:30 p. m. by 14 young people in the First Baptist Church school auditorium under the direction of Mrs. Chester A. Greene.

The story of the drama concerns four of the Galilean children whom Jesus loved and blessed. They come to lay flowers on the tomb of their Lord; and the kindly, skeptical Roman soldiers guarding the tomb amuse themselves by joking with the children and leading them to talk of the "Master." When the young Galileans go, strange dreams of the Crucifixion visit the soldiers in their troubled sleep. The scene ends with the coming of the angels of the Resurrection to roll away the stone from the tomb.

The cast of characters follows: The soldier who played the Crown of Thorns, Walter Greene; the soldier who pierced Jesus' side, Charles Cummer; the soldier who won the Seamless Coat, L. Dean Bohmke; the Daughter of Jairus, Gay Lasher; the Epileptic Boy, Cornelius Houser, Jr.; the Lad who had five barley loaves and two fishes, Ronald Cline; a Child whom Jesus blessed, Judith Hull; the Angels who rolled the Stone away from the Tomb, Pauline Hohenberger and Nancy Kilmer; the Child with the Crown of Thorns, Carol Short; the Child with the Lance, Gloria Benjamin; the Child with the Seamless Coat, Kathleen Silliman; the Child with the Cross, Mary Lou Craft.

The vested Temple Choir will provide appropriate anthems for the drama. The offering of the evening will go into the Temple Choir treasury for the purchase of new choir robes. The public is invited.

## Mrs. Langer Speaks At Musical Society

Mrs. Suzanne Langer was guest speaker at the regular meeting of Musical Society Wednesday night at the home of Miss Anne Goldrick, 39 West Chestnut street. Her topic, Music as a Symbol of Feeling, was explained from a philosophical standpoint.

Mrs. Langer is a lecturer in philosophy at Columbia University and the author of textbooks in philosophy. Her one book, "Philosophy in a New Key," has been used extensively in college courses. Under a Rockefeller grant, she now is writing another textbook, "Philosophy in Art."

Mrs. Langer traced the expression of various emotions and ideas through one's facial contours and choice of words in speaking. She noted that words were symbols of feeling and in much the same manner the elements of music were symbols of feeling. She said that a composition did not necessarily express the emotions felt by a composer at the time he was writing the music, but rather that he knew what elements of music to use to express feelings which he designed to evoke in the composition.

The speaker illustrated some of her points by playing bits of melody often used by Mozart in his compositions and also the difference of feeling expressed by major and minor chords. In conclusion a general discussion was held.

Mrs. Kenneth Hickok played Chopin's Nocturne in F Sharp Major and Mrs. Lester Decker played a Nocturne by Respighi.

The program was arranged by Mrs. Henry F. Dunbar and Mrs. LeRoy Wood. Mrs. Dunbar introduced her sister, Mrs. Langer. During the business meeting it was reported that at the previous meeting officers had been re-elected for next year. Mrs. LeRoy Vogt is president; Miss Ethel Mauterstock, vice president; Mrs. Arnos Newcombe, secretary; and Mrs. Kenneth Hickok, treasurer. Mrs. Vogt announced the following committees: membership, Mrs. Bernard Forst, chairman; Mrs. Mary Z. Chidester and Mrs. Lloyd LeFever, program; Miss Alberta Davis, chairman; Mrs. Willard Burke, Mrs. Hickok, Mrs. A. Noble Graham and Miss Ethel Mauterstock. Members of the club were asked to make suggestions for next year's program.

Refreshments were served at the close of the meeting with Mrs. Forst and Miss Goldrick as hostesses. Mrs. Vogt assisted by pairing. The table centerpiece was an arrangement of talisman roses in crystal holders. The next meeting will be a book review at the home of Mrs. Willard Burke, 190 Washington avenue, May 11. The open meeting will be held May 25 at the home of Mrs. Arthur Sheldon, West Chestnut street, when each member will have the privilege of inviting a guest.

## Medical Auxiliary Hears Schuylerville Woman at Luncheon

Mrs. Thomas Bullard of Schuylerville told the Women's Auxiliary to the Medical Society of the county that the compulsory health bills which a small group of men are endeavoring to force on the American public would be a definite step toward Communism. Mrs. Bullard spoke to the local auxiliary at its annual spring luncheon Tuesday in Ye Nieuw Dorp, Hurley.

She is a firm believer in the American way of life and feels that her "fifty years a doctor's wife" have been happy and busy years. Mrs. Bullard amused the members of the auxiliary with her humorous anecdotes demonstrating differences in communications, transportation, lighting, hospital facilities, equipment and recreation, 50 years ago and now. She reminded her audience that modern facilities were not known, therefore they were not missed and she felt she had a lovely home 50 years ago.

The speaker believed that human nature is basically the same now as then and that the public demands a physician be an "uncommon man," who is loyal, trustworthy and efficient.

Accompanying Mrs. Bullard was Mrs. Albert van der Veer, 2nd, of Albany, district councilor of the auxiliary. She spoke briefly and complimented the local group on its record in conducting the program outlined by the New York State Auxiliary. She requested that the group continue to work and be ready to perform the duties outlined by the State and County Medical Societies.

Mrs. Vincent P. Amatrano presided at the short business meeting. Mrs. Alfred W. Harder gave the annual treasurer's report.

**Summer Dance**  
Mrs. George Elntzer reported on the plans for the summer dance to be given at the Twaalfskill Club August 20.

Plans for a luncheon and fashion show to which friends may be invited were formulated. Mrs. James Gibbons and Mrs. Peter Corsones were named co-chairmen of this luncheon.

Mrs. Amatrano gave the annual report of the past year, which included four local meetings and two state executive board meetings in Syracuse and New York which she attended accompanied by Mrs. Gibbons, vice president. Mrs. Amatrano expressed sincere appreciation to all members and to the officers for the commendable plans that they executed during the year. Appreciation was extended to Dr. Emil S. Goodyear and Dr. Saul Ritchie who gave so generously of their time to address the auxiliary members at two of the meetings.

The officers have completed their first year of a two year term of office. Mrs. Amatrano requested all members to become well-informed on the problems confronting the medical profession today.

April 18—Patricia Ann to Mr. and Mrs. George Sinsabaugh, 21 Hurley avenue.

## Opera Affiliate Is Found Shot

Atlanta, April 21 (AP)—A man tentatively identified as a member of the Metropolitan Opera Company was found shot to death today.

Lieut. M. M. Coppenger of the homicide squad said papers on the body identified him as Jans J. K. Garais of New York city. Other papers bore the name of John Garais.

The opera concluded a three-day engagement here last night and left for Memphis.

Detective Chief E. I. Hildebrand said identification was not definite, but that it was believed the man was a member of the opera company. He said he wasn't sure whether he was a singer or a musician.

Hildebrand said the man apparently was shot to death by someone else.

Coppenger said the man's pocketbook and valuables were still in his clothing. He said he was in shirt sleeves.

There was one bullet wound, near the heart.

tures for new plants to meet increasing demands for service. Eddy said: "It is essential that the company's earnings be such as to support the financing required to take care of its construction needs; otherwise, the cost of money to the company may be sufficiently high as to, in the long run, cast a burden on the public over a long period of years."

At present the company is purchasing a large part of its electric energy from the Consolidated Edison Company of New York. Recently the Edison Company notified Central Hudson it would stop supplying power.

Central Hudson, the P.S.C. said, will have to obtain power from some other source, for which it may have to pay higher rates, or it will have to build considerable production capacity. The company has under way plans for such construction.

The P.S.C. said that when the company embarked on its building program, "its rate structure was provided sufficient revenue to attract capital for expansion."

## Air-Conditioned Hats

MERGER of interest is the coming together of the half-hat and the whole net to make a hat-net fashion for spring and summer. The hat-net promises to keep heads cooler and hair tidier even in an open roadster or in a fiercely-competitive tennis game. White pique tennis visors, lined with green eye-shade fabric, combine with white nets of coarse mesh for hair control. This is also the idea behind the union of mesh nets and cotton half-hats; of nets and printed scarves which make scarf-nets. A scarf-net is a smartly-tied scarf attached to a hair-confining snood of mesh.

—EFSIE KINARD, NEA Fashion Editor.

These cool headliners for summer are half hat and half mesh net which keep the hair smartly confined. Red and white polka-dotted crepe scarf, tied at the side, is combined with a net of metallic thread to make a head-hugging tu-ban (top right). Motorist (top left) wears a net cap which has a ruffled blue cotton visor-brim banded with navy ribbon. For active sports, the tennis player (bottom left) models a white pique sun visor which is attached to a snood-like net of heavy white nylon mesh. Headband size is adjustable to insure a snug fit.

## Court of Appeals Reinstates Cuts in Electricity Rates

Albany, N. Y., April 21 (AP)—That in-again out-again 11 per cent electricity rate cut in New York city is in-again.

The Court of Appeals yesterday reinstated a \$21,500,000-a-year slash in rates for an estimated 2,000,000 customers of the Consolidated Edison Co.

The cut—which is "temporary" anyway—went into effect January 10, by order of the State Public Service Commission pending determination of new permanent rates.

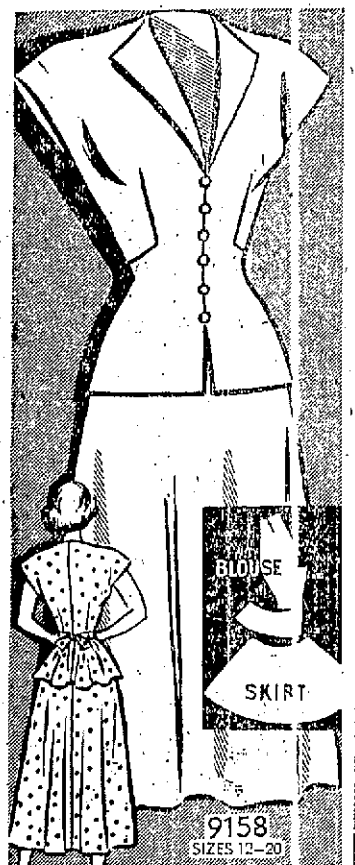

Then the private utility went to bat.

First it asked the P.S.C. for a re-hearing and postponement of the effective date of the reduction. The P.S.C. said nothing doing.

The company then asked Justice Isadore Bookstein of State Supreme Court to grant a stay that would throw out the rate cut until the courts had reviewed the original P.S.C. order in a certiorari proceeding. The Albany justice on February 11, said nothing doing on the stay.

The company then asked the Appellate Division Third Department to suspend the utility's effective rate reduction. This time the company won a round—stay.

embassy will be asked for advice.

Diplomats who have seen service in the Soviet capital say Kirk faces a lonely vigil unless relations between the Soviet bloc and the West should take a decided turn for the better.

Ambassador Smith sometimes went for weeks without any face to face dealings with the Soviet Foreign Office or direct contacts with individual Russians.

At the same time, the new ambassador must be qualified to conduct vital personal negotiations, possibly with Prime Minister Joseph Stalin himself, in the event of a break in the cold war.

Associates described Kirk as qualified for the job in all respects. He is 60, short in stature, energetic and friendly in manner. He was reported well-liked by the Belgians.

Officials said Kirk never to their knowledge has visited Russia, although he may have stopped there briefly during a naval cruise.

Mrs. Kirk presumably will go with him to Moscow. She is a sister of Selden Chapin, until recently American minister to Hungary. Kirk's two daughters are married and a son is a student at Princeton.

Moscow apparently likes the idea of a military man as American envoy. Kirk's name was approved promptly by the Kremlin before being submitted to the Senate. Besides General Smith, the United States had another admiral as ambassador in previous days—William H. Standley.

Since Smith returned home at the end of last year, the embassy

There has been no decision on the company's contention proceeding against the P.S.C. temporary rate order. The action instituted before Justice Bookstein was transferred directly to the Appellate Division. It will be argued at the May term here.

# Joe Hoffman Named to Head '49 KAA Junior Baseball Committee

Joe Hoffman, veteran Kingston catcher and baseball manager, was appointed chairman of the Kingston Athletic Association's 1949 Junior Baseball Committee at last night's monthly meeting of the local sports group.

Hoffman and assistants to be named by President Louis G. Bruhn will formulate a nine to ten-week program to be operated in July and August at four local playgrounds.

The names of the four instructors will be announced in a few days. The quartet will be selected from a list of Kingston candidates.

Assistance for the program was pledged last night by President Ted Laviano and Manager Jules Laviano of the Class B Kingston Colonials.

## Help From Colonials

President Laviano said that members of the Colonials would make appearances at the various playgrounds from time to time to assist the instructors and give the youngsters special instructions at various positions.

The entire roster of the Colonials which is working out daily at the municipal stadium attended the K.A.A. meeting. President Laviano introduced each member and gave a short, biographical sketch of each candidate.

Pointing out that the present Colonial roster features a group of big, fast and eager young men, Laviano predicted a fast club this season.

Before presenting the individual players, the Colonial president addressed the ball players as a unit and explained briefly the purposes and background of the Kingston Athletic Association.

The program was completed with the showing of several reels of sports films on hunting, fishing, juvenile delinquency and wrestling.

# New Classes Are Approved by K.B.A. For 1950 Tourney

Three classifications for bowlers will be in operation for the 1950 Kingston Bowling Association tournament, it was decided during Wednesday night's board of directors meeting of the K.B.A. at the Y.M.C.A.

The directors also voted an increase in annual dues on team basis. The members also voted to discontinue the publication of the annual blue book containing advertisements, by-jaws and statistics.

The following new classifications were decided upon at last night's lengthy session. Jake Chichelsky reported to The Freeman today:

A—To include 180 average and above on a scratch basis in each event, singles and doubles.

B—To include 160 to 179 average keglers on a 75 per cent handicap basis in each event.

C—To include all keglers up to 159 average on a 75 per cent handicap basis in each event.

In connection with next year's K.B.A. tournament, it was decided to send out bids for the 1950 competition.

The hike in dues will be based on the following team basis:

Three-man team, \$2.50 to \$3.

Four-man team, \$2.75 to \$3.25.

Following a lengthy discussion, it was voted to set the secretary's salary at \$200. This vote followed a drawn out debate on paying the secretary 50 cents per team in addition to tournament expenses.

Gilbert Sampson presided at last night's meeting.

To Elect Officers

Another K.B.A. meeting is scheduled for next Wednesday, April 27, at 7:30 p. m. when election of officers for the new year will take place. The meeting will be held at the Y.M.C.A.

# Hardy-Bell Bout Tops Ring Card

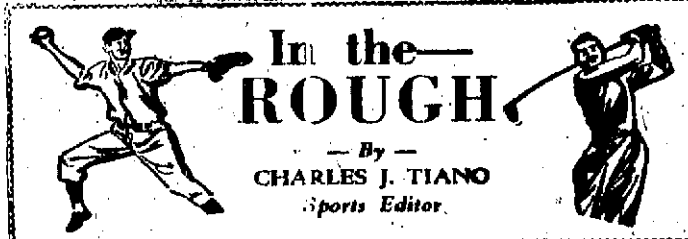

This is boxing night in Kingston and topping the semi-monthly B'nai B'rith bill at the municipal auditorium will be the Jim Hardy of Canada vs. Tony Bell, 1949 Massachusetts State and New England Golden Glove champ, headliner. The first bout is scheduled for 9 p. m.

Hardy, a big favorite with local fans, is at present one of the top-ranking amateurs in the Adirondack A.A.U. circle.

Tonight's battle with Bell is expected to provide Hardy with his toughest assignment in the local ring. Taking his pattern of boxing from Sugar Ray Robinson, the New England titleholder has turned in an impressive string of victories throughout the Boston area.

Other top bouts on tonight's card will feature Sam Eicke of Brooklyn and Angelo Attardo, Boston slugger, and Billy Hunter, Boston, vs. Ray Field of Utica.

Local ring fans are anxious to get a look at Eicke who holds a decision over Art Sulloletta. His Boston opponent tonight, Attardo, is the New England Golden Gloves lightweight champ. Supporting these five-round bouts tonight will be three-rounders featuring other Adirondack A.A.U. favorites.

## Green Baize and Green Lettuce:

Brunching with Nick Kasich and the city pocket billiard tournament "sharks" Tuesday night at Judie's, we were reminded of a once powerful advertising slogan that "quality of product is essential to continuing success." "Mr. Billiards" of Kingston has had both, and deservedly, for more than a quarter of a century.

Nick has been the backbone of the billiard industry in the city, has operated a clean, orderly place and spent thousands of dollars promoting the game through tournaments, special exhibitions and other attractions. He richly deserves the high stature he enjoys in local sportsdom.

**KLEINER'S KORNER:** Headline: "Coffin to Have Gala Opening." Don't get excited. It's a golf course near Indianapolis. That's probably the course where the 19th hole serves nothing but short biers.

## Flotsam and Jetsam:

At the Groveport Golf Club near Columbus, Ohio, a minister conducts services every Sunday on the course. Very handy for the sanctity of the American language and for duffers who want to be saved—from sandtraps. John "Big Ed" Weaver was awarded a varsity letter in basketball at the annual winter sports dinner at Valley Forge Military Academy last night. He was high scorer on the grounds and previously had been awarded a letter in football. Colonial Baseball League writers will form an association on April 30 in Bridgeport. Three Ithaca College athletes from Kingston and vicinity have been presented letters and sweaters by the College and Varsity Club, composed of sports lettermen, John P. "Buddy" Smith for basketball, track and soccer; Leland John Boice, football and golf; and Robert W. Wendland, of Nanapanoch, baseball, soccer and track. Don Reihl, of Kingston, is fighting for the third base position with the Albany Business College baseball team.

## Colonial League Capers:

Our old friend, Eddie Koblesky, 1948 Colonial pilot, was given a foot-long plywood "Key to the City" by the mayor when his team came to Batavia, N. Y., from the spring training base at Marianna, Fla. Al Barillari, of the Bristol team (formerly Port Chester) is the only holder; manager in the circuit. New pilots are Julie Laviano here; Woody Williams, Poughkeepsie; Ollie Byers at Bridgeport; Joe Glenn, Stamford; and Bert Sheppard, one-legged war hero hurler from the Washington Senators, at Waterbury. Outfielder Joe De Tola, Poughkeepsie powerhouse slugger of 1948 who was sold to the Boston Red Sox failed to advance up the ladder. The outfielder has been sent from Scranton of the Eastern League to Roanoke, Va., of the Class B Piedmont circuit. . . . Joe Abreu, catcher for Bridgeport in 1948, suffered a fracture ankle with Lynn, Mass. of the New England League when he stepped on a baseball.

## About Hogan's "Dropped Elbow":

According to Lawrence Robinson, the World Telly golf specialist who appeared here last fall, Ben Hogan's swing secret, the mysterious little thing Ben says he discovered a couple of years ago that made him become a great champion, the one which he wouldn't even tell his wife.

Just before his terrible auto accident, Hogan declared the trick he discovered on the practice tee wasn't complicated. But so long as no one else found it out, Ben was determined to keep it to himself, Robinson says.

Chapman says his discovery is so simple, too, that it must be Hogan's formula. Once a pupil of Hogan, and a close student of Ben's style, Chapman happened to find it accidentally.

Dick says the principal part of the Hogan "secret" has to do with action of the right elbow at the top of the swing. First the clubhead must get into a certain position, down across the middle of the shoulder, or flat, as the experts say.

From that position, declares Chapman, the first movement is to drop the right elbow in against the side. By doing this, Chapman says the hands move down as well. The left side thus goes into action simultaneously.

Is that clear to you duffers?

## W.I.B.C. Will Open In Columbus Today

Columbus, O., April 21 (AP)—Thirteen thousand women bowlers will converge on Columbus in the next 41 days. And more than half of them will leave with prize money.

That's the nice part about knocking down pins in the Women's International Bowling Congress. They've got a pretty fair chance of coming up with a prize—even if it's only one of the small ones.

Maybe that's why a record number of female keglers will participate in the annual classic starting today at Riverview Recreation.

The \$3 prize may be the lowest awarded. But when you total up 1,005 of those lowest prizes, it figures out to a pretty fair share of the \$33,784 total.

The winning team will receive \$500 and medals; the doubles champs get \$250 and medals; and the individual queen will be awarded a check for \$150, plus a medal.

Mrs. Jeanette Knepprath, president of the W.I.B.C., arrived in town last night and appeared enthusiastic about the bowling meet.

A team from Canajoharie, N. Y., and 29 Columbus teams open the rolling today.

### Bowling Scores

Bettie Simmons of the Skyline furnished the big blast in the Sunshine Women's League at the Bowldrome Wednesday night with a 407 triple. The Skyline anchor bowled games of 169-157-141.

Also in the "400" bracket was Barbara Landers of the Kingston Knitting Mills who carved 403 on 166-128-109.

Others in the top category included L. Schupp with 393-393; Dot Strubel 147-389; M. Van Valkenburg 141-381; B. Flagg 132-381; and Gloria Van Loan 141-380.

Letus (no first name reported) led this week's activities of the Booster League with a 520 triple.

Five pins off the piece was Jim Cave, one of the heroes of the recent K.B.A. tourney, who shot 515.

Letus threw in games of 200-172-140 for his top effort while Cave's scores included 162-188-185.

The only other "500" was turned in by Vince Guido who shot 216-510. His other scores were 149 and 145.

Elsewhere in the circuit, Harold "Giants" Steger fired 216 openers and a 483 in game 173.

Don Beany 173-470; Jack Nelson 166-409; Andy Campbell 188-468.

### Loses Suit for Hotel

Margate, England (AP)—County Judge A. P. Clements ruled here that fried kippers and gorgonzola cheese are a proper breakfast for a two-year-old baby. The judicial finding grew out of a suit of a hotel proprietor who tried to collect from a man who moved before staying an agreed time. He moved, said the man, because there was nothing but cheese and kippers for the baby, and the court said he was jolly well right.

### Platform From Police

Chicago (AP)—Patrick Devine, a traffic cop, saw the woman every afternoon. She was on crutches. She struggled into into Washburn avenue at Ninth street, and pulled herself aboard a streetcar. There must be an easier way to get up those steps, Devine thought. He found some pieces of lumber and a scrap of rubber matting and built a platform. Now, when he sees the crippled lady coming, he places the ramp in the street and she hobbles onto the car.

Pote Reiser, Boston Braves left fielder, is out at home plate in the eighth inning of the Braves' Phillies game at Braves Field in Boston when teammate Tommy Holmes doubled to deep right field. Phillies left fielder Bill Nicholson's throw to Eddie Wallis who threw to catcher Andy Seminick was in time for the putout. The umpire is Bill Stewart. The Braves won, 6 to 5. (A.P. Wirephoto)

## Detroit's Groth Hottest Rookie In Majors; Cracks Third Homer

By JACK HAND (Associated Press Sports Writer)

Johnny Groth looks like the hottest rookie to hit the majors since Joe DiMaggio, Ted Williams and Stan Musial.

Sure, it's too early to tell. Two days don't make a season or a career. But what a two days this 22-year-old Detroit freshman had. Three home runs, five hits and seven runs batted in. That's a flashy showing that needs to take a back seat to nobody.

The \$35,000 the Tigers shelled out as a bonus to Johnny when he got out of the Navy at Great Lakes may have been their best investment. At least, one \$52,000 product, Dick Wakefield, is riding the bench these days.

### Overshadows Hurlers

Groth exploded a chorus of hurrahs Tuesday with two homers off Chicago's Al Gettel. That overshadowed Hal Newhouse's fine three-hitter.

Yesterday he almost blotted out Virgil Trucks' four-hitter with a grand slam homer that gave Detroit a 5-2 edge over the White Sox.

Randy Gumpert, the ex-Yankee, held a 2-1 lead in the last of the eight when he lost his stuff. A walk to Aaron Robinson loaded the bases, bringing a conference between Manager Jack Onslow and his pitcher. Anslow decided to stick with Gumpert. Seconds later he wished he had another chance.

Gumpert, threw two wide pitches to Groth, and then got one over. Groth hit it 380 feet into left centerfield, stands to clean the bases. Earlier Groth drove in a run with a double.

An oldtimer said the homers for the New York Yankees in their 3-0 second straight win over Washington, Tommy Henrich, one of the few genuine Yanks still able to play, snapped a scoreless tie between Vic Raschi and Paul Caltvert with a fourth-inning homer. It was his second of the year, his first accounting for the Yanks' opening day success.

MacKinnon Win Again  
Everybody said the Boston Red Sox couldn't possibly get away as slowly as last season, but they're giving it a good try. Joe McCarthy's Sox were beaten by the Philadelphia A's for the second straight day, 3-2 in 10 innings.

Cleveland, although it's urbed about Bob Feller's shoulder trouble, knocked out three pitchers in thumping the St. Louis Browns, 7-3. It was the first victory for the world champs with Bob Lemon, a 20-game winner in '45, going all the way despite home runs by Dick Koks and rookie Jack Graham. Karl Drews was the loser.

Jonas Ties Mark  
Puddin' Head Jones, the Philadelphia Phillies rookie hot shot, tied a modern major league record with four doubles, but they couldn't keep the Phils from losing to the Boston Braves, 6-1. Bill Nicholson of the Phils and Earl Torgerson of the Braves honored in a free-hitting contest that saw neither side getting a hit in the second win of the season. Jim Konstanty, the Phils' new moppet, upper, lost.

The speedy Brooklyn Dodgers walked to victory against the New York Giants, 6-2. Loser Sheldon Jones gave only one hit before he was replaced in the fourth but he walked seven and wild-pitched twice. Despite a home run fall to Sid Gordon, Ralph Branca was in charge all the way, scattering four Giant hits.

Top National League plying effort came from Chicago's Bob Rush, the 23-year-old sophomore, who shut out Pittsburgh, 4-0. Murray Dickson, the ex-Cardinal whose sale to the Pirates prompted such an uproar, from Manager Eddie Dyer and his players, was nicknamed for all the runs in his six-inning stay.

St. Louis and Cincinnati were not scheduled.

### Yesterday's Stars

(By The Associated Press)  
Batting—Johnny Groth, Tigers. Hit grand slam homer, double and single, driving in five runs in Detroit's 5-2 win over Chicago.  
Pitching—Bob Rush, Cubs. Struck out seven Pirates in three-hit, 4-0 victory.

During the past year, 13,000 Naval Air Reservists participated in regular drills or annual training.

## International Set For 66th Opener

New York, April 21 (AP)—The International Baseball League will open its 66th consecutive season today with an expected attendance of 92,000 or more. Three afternoon games and one night game make up the program.

Jersey City, as usual, is a cinch to walk off with attendance honors. Sale of 53,000 tickets is assured for the game between the Little Giants and Rochester.

Half of these won't be able to squeeze into the park, however, the park seats only 26,000. The time is 2:30 p. m. (E.S.T.).

Other games, expected attendance and starting time are:  
Toronto at Newark, 15,000 (2:30 p. m.)  
Montreal at Baltimore, 12,000 (8:15 p. m.)  
Buffalo at Syracuse, 10,000 (3 p. m.)

Nash has built a new kind of automobile for those who want the utmost in luxurious motoring.

It is a big car in every respect, with maximum passenger and luggage space. Its efficiency and performance are something entirely new in fine cars.

The Nash Ambassador employs the principle of Unitized body and frame, eliminating useless weight, increasing strength and safety.

Compared with the other three finest American automobiles, the Nash Ambassador will deliver as much as thirty per cent more miles on a gallon of gasoline. And you will ride and drive in greater comfort and with less fatigue than in any other automobile in your experience.

In exterior design, it is the only car streamlined from bumper to bumper with uninterrupted fender lines. The only car with unobstructed curved windshield in all models.

And the Nash Ambassador is priced \$875 to \$2,428 lower than you would have to pay for any of the other three fine automobiles.

Nash dealers invite you to drive this most modern car.

\*Based on prices reported in Automotive News, April 11, 1949.

## Smell Your Colors? Cockroaches Do

By HOWARD W. BLAKESLEE  
(Associated Press Science Editor)  
Philadelphia, April 21 (AP)—Don't laugh at the person who says he can smell colors.  
Scientific evidence that cockroaches can smell black was presented to the American Philosophical Society today. No other colors were tried, because this was not a study of the life of a cockroach, but of what smell really is.  
The roach work was presented by Dr. Walter R. Miles, professor of psychology, Yale University, and Lloyd H. Beck of Yale.  
They placed large cockroaches in a cage, whose floor readily passed heat rays. The cage was hung half

an inch above an aluminum checkerboard. There were inch wide squares of polished aluminum alternating with squares of lamp black.  
The lamp black was a year old, and without smell. The cages were in total darkness. Roaches, crawling on the floor of the cage, half an inch above the checker board, concentrated directly above black squares. They were scarce above the aluminum.  
The explanation is that heat, or infra-red rays, flowed out from the roach smellers toward the lamp black, because black absorbs heat. No such outflow occurred over the aluminum squares, because the aluminum reflects infra-red rays. The heat travelled from these shiny squares toward the insects, smell organs, instead of away.  
This supports Dr. Miles' new theory that smell is partly a loss of heat from the organs of smell. He said the roaches actually smelled the black because of this nose heat loss whenever they got over a black square.  
A sheet of glass, thick enough to stop heat rays, was placed between the checkerboard and cage, and then the roaches quit all signs of smelling the black color.

## Mrs. Schumm Sues For Share in Will

Los Angeles, April 21 (AP)—Mrs. Gloria Schumm, 32-year-old movie bit player, will fight for a share of Wallace Beery's \$2,000,000 estate, for her 14-month-old son who, she claims the late actor fathered.

In his will, filed yesterday for probate, the veteran actor declared: "Johan Richard Wallace Schumm is not my issue, and I declare that under no circumstances is he to inherit any portion of my estate or to receive any gift."

Beery died last Friday at the age of 64. When he signed his will last March 22, his attorneys were negotiating for a \$20,000 compromise settlement with Mrs. Schumm which would include a court decree declaring he was not the father of her child.

Within half an hour after Beery's will was filed for probate, Mrs. Schumm's attorney obtained her court appointment as her son's guardian for the purpose of suing for a share of the actor's estate.

His petition named Beery as the child's father. But the actor declared in his will: "I have no children, the issue of any marriage or otherwise."

After a \$10,000 bequest to Matt Gillman, brother of a former wife and manager of his ranch at Jackson Hole, Wyo., Beery directed that the rest of his estate be divided into three parts. One goes to his nephew, Noah Beery, Jr., one to his brother William, in trust and the third to his adopted daughter, Carol Ann, 18.

Beery made no reference in his will to actress Gloria Swanson, who divorced him 30 years ago. He mentioned his second wife, Mary Arta Foyt, and said she received no bequest because she had remarried since their divorce in 1939, when, after provision was made for her.

Mrs. Schumm charged in her paternity suit, filed soon after her son's birth, that she was intimate with Beery in his Beverly Hills home after she divorced Hans Schumm, 52-year-old actor. She later remarried Schumm.

She signed the \$20,000 settlement agreement but later repudiated it before it received court approval.

**Two Calls Answered.**  
Firemen answered calls for a brush and chimney fire Wednesday and for a rubbish fire early this morning. The brush fire at 3:39 p. m. was near the end of Pearl street, and the chimney fire at 5:15 p. m., was in a house owned by Louis Covino at 9 Mendow street. The rubbish fire at 3:54 p. m. today was to the rear of the Fuller shirt factory.

**Leftover Potatoes.**  
Leftover potatoes are usually eaten with relish if they are sliced, spread with butter or margarine and broiled until lightly browned on both sides. They may be dusted with paprika, if you like, before they are sent to the table.

## Face-Saving

Wearing his headman's mask, Gustav Voelpe, 48, Berlin executioner who claims to have chopped off 30 heads since the end of the war, sits in a police station after being arrested for robbery. He denied robbing an invalid but admitted, however, he'd been forced to seek a sideline recently due to a slowdown in the head-chopping business. "At 1000 marks a head," he said, "I can hardly make ends meet."

## Electric Shocks Are Made Easier By Relaxing Drug

By ALTON L. BLAKESLEE  
(Associated Press Science Reporter)

Detroit, April 21 (AP)—Electric shock treatments for mental ailments are made safer with a drug that relaxes muscles.

The drug is meprobamate, a new-corned with spreading uses. Its value in treating mental illnesses was announced today by the Federation of American Societies for Experimental Biology by Dr. Klaus Anna and A. Kaplan of the University of Illinois.

Electric shocks help many people with some kinds of mental illness, often restoring them to normalcy. But the shocks can throw them into violent movements or convulsions, with danger that they will break bones or otherwise injure themselves.

Meprobamate prevents or minimizes the convulsions from the shocks and other nerve stimulants. It also prevents the stopping of breathing that often occurs during electro-shocks. It was tested on patients at Maitland State Hospital in Illinois.

New pain relievers for stomach ulcers were reported by Dr. George P. Child of the Albany Medical College, Albany, N. Y., and Dr. Robert A. Woodbury, University of Tennessee Medical College, Memphis. These pains come from stomach contractions. The drugs are ones long used to produce local anesthesia. Chemically they are like the belladonna drugs now used to relieve ulcer pains. They compare favorably with the belladonna drugs and avoid some of the bad effects of them, the researchers said. In large doses, the belladonna drugs can be harmful.

Nupercaine, one of the local anesthetics, appears especially

good in relieving the contraction pains in people ulcers without having harmful effects, they added. They said the research so far is very promising, but further tests must be made.
